Review Papers

Yunus Kathawala — 981 Applications of quantitative techniques in large and small organizations in the United States: an empirical analysis

Johan Maes and **Luk Van Wassenhove** — 991 Multi-item single-level capacitated dynamic lot-sizing heuristics: a general review

Case-oriented Papers

K. Holden and **D. A. Peel** — 1005 Combining economic forecasts

K. C. Jordi and **D. Peddie** — 1011 A wildlife management problem: a case study in multiple-objective linear programming

Theoretical Papers

G. Anandalingam — 1021 A mathematical programming model of decentralized multi-level systems

Kenneth Darby-Dowman and **Holly S. Lewis** — 1035 Lagrangian relaxation and the single-source capacitated facility-location problem

Technical Notes

S. K. Goyal — 1041 Determination of economic packaging set-up frequency of jointly replenished items: a classroom approach

Balasubramanian Ram and **Sanjiv Sarin** — 1045 An algorithm for the 0-1 equality knapsack problem

Dragiša Stojanović — 1051 The growth matrix of the sale

Rakesh V. Vohra — 1057 A quick heuristic for some cyclic staffing problems with breaks

Book Selection

P. Clark and **K. Starkey** — 1063 Organization Transitions and Innovation-Design

M. Luck and **G. Walsham** — 1064 Operational Research Applications in Development Management—Case Exercise Book

A. J. Rowe, R. O. Mason, K. E. Dickel and **P. A. Westcott** — 1065 Computer Models for Strategic Management

J. Friend and **A. Hickling** — 1067 Planning under Pressure: The Strategic Choice Approach

Letters and Viewpoints — 1069
