

ADVANCES IN THE
BIOSCIENCES, Volume 17

**Current Concepts
in Kinin Research**

Editors: G. L. HABERLAND
U. HAMBERG

PERGAMON PRESS

Contents

1. Functions and Mechanisms of the Kinin System

| | |
|---|----|
| Introduction <i>G.L. HABERLAND</i> | 3 |
| Opening Remarks <i>M. ROCHA E SILVA</i> | 7 |
| The Role of Kinin System in Male Fertility <i>Á. GECSE, A. OTTLECZ, G. TELEGDY and L. TÖRÖK</i> | 15 |
| Kinin Involvement in Oestrogen-induced Hyperaemia in the Rat <i>S. PHAILY and J. SENIOR</i> | 25 |
| Kallikreins - Their Possible Biological Significance as Widely Distributed Serine Proteases <i>M. SCHACHTER</i> | 33 |
| The Mechanism of Action of Bradykinin on the Isolated Rat Uterus. Involvement of Prostaglandins? <i>E.T. WHALLEY and G. RAYNES</i> | 37 |
| Bile may be a Stimulus for Activation of Duodenal Kallikrein during Digestion <i>N.H. FRANKISH and I.J. ZEITLIN</i> | 43 |
| Interactions of Kinins with Amines and Peptides in the Microcirculation <i>B.M. ALTURA</i> | 47 |
| Plasmakinin System in Alloxan Diabetic Rats <i>A. OTTLECZ, M. KOLTAI and Á. GECSE</i> | 57 |
| Large-scale Preparation of N-carboxypeptidase (Kininase I) as By-product of Routine Fractionation <i>C. GRANIER, M. FONDACCI and M. STEINBUCH</i> | 65 |
| Neutral Proteases from Granulocytes and their Inhibitors <i>P. WENDT and G. BLÜMEL</i> | 73 |

2. Kallikreins and Methods of Determination

- The Role of Kallikrein in the Pathogenesis of African Trypanosomiasis 85
P.F.L. BOREHAM and M.G. PARRY
- C $\bar{1}$ Inhibitor: the Main Inhibitor of Human Plasma Kallikrein 93
M.M. TRUMPI-KALSHOVEN and C. KLUFT
- Purification of Kallikrein in Human Pancreatic Juice, Immunological and Inhibition Studies 103
M. AMOURIC and C. FIGARELLA
- Studies on the Physiological Function of Glandular Kallikrein by Radioimmunoassay 111
E. FINK, J. SEIFERT, R. GEIGER and C. GÜTTEL
- Comparison of Kinin Release and Blood Pressure Activity of Porcine Pancreatic, Submandibular, and Urinary Kallikrein 121
B. DITTMANN and R. WIMMER
- Isolation and Determination of Human Urinary Kallikrein 127
R. GEIGER, E. FINK, U. STUCKSTEDTE and B. FÖRG-BREY
- Some Properties of Human Urinary Kallikrein obtained through Scaled-up Purification 133
F. AMINTAS, S. FIGUEIREDO and M. MARES-GUIA
- A New Assay for Urinary Kallikrein 139
D.H. MORRIS and J.M. STEWART
- Studies on the Activation of the Pre-kininogenin-Kininogenin (Pre-kallikrein-Kallikrein) System by Sulfated Polysaccharides and Kaolin 145
E. DOS SANTOS, H.A. ROTHSCHILD and M. ROCHA E SILVA
- Fragmentation of Rabbit Low Molecular Weight Kininogenin by Pig Pancreatic Kallikrein 151
L.G. MAKEVNINA, G.O. LEVINA, S.F. SHERSTJUK and T.S. PASKHINA

3. Intrinsic Blood Clotting and Plasma Kinin Formation

- The Use of Chromogenic Substrates for the Determination of Kallikrein and Other Serine Proteases in Plasma and Synovial Fluid in Man 163
D.H. LEWIS, M-B. BENGTSSON, S-O. LILJEDAHL and J. LARSSON
- The Evaluation of Hog Pancreatic Kininogenase and Methods of Measurement 173
C.M. AYLING, C.P.J. CAYGILL, R.E. HARTLEY, N. SUTCLIFFE and T.I. TSAKOK
- Bradykinin Radioimmunoassay in Plasma Kininase Determination 183
R. SIPILÄ and I. TORSTILA
- Kinin and Myocardial Infarction: Effect of Trasylol on the Plasma Prekallikrein and Kallikrein Inhibitor 187
P.L. DEL BIANCO, G. FRANCHI, M. LOMBARDI, D. CALERI, C. CURRADI and F. SICUTERI

| | |
|---|-----|
| Immunoreactive Kininogen in Acute Myocardial Infarction Determined by Single Radial Immunodiffusion using Monospecific Anti-Kininogen Serum <i>U. HAMBERG and I. TORSTILA</i> | 197 |
| 4. Characterization of Plasma Kininogens — Kinin Potentiation | |
| Structure-Function Relationships of Human High MW Kininogen related to Contact Activation of Plasma (Abstract) <i>D.M. KERBIRIOU and J.H. GRIFFIN</i> | 205 |
| Heterogeneity of Native and Isolated Human Plasma Kininogens <i>U. TURPEINEN and U. HAMBERG</i> | 207 |
| A Rapid Method for the Preparation of Plasma Alpha ₂ SH Glycoprotein: Use of the Zinc-Chelate Affinity Chromatography as an Intermediary Step <i>J.P. LEBRETON, M. HIRON and F. JOISEL</i> | 217 |
| Interaction of Smooth Muscle Endogenous Prostaglandins with Kinins-Potentiators <i>H. EDERY and M. SHEMESH</i> | 223 |
| Effect of Stretching of the Guinea-pig Ileum Upon its Response to Bradykinin and to Bradykinin-potentiating Peptides <i>S.I. SHIMUTA, E.B. SABIA, A.C.M. PAIVA and T.B. PAIVA</i> | 231 |
| Antagonism of the Bradykinin Induced Contractile Response of Isolated Smooth Muscle Preparations by Low Molecular Weight Synthetic Chromogenic Peptide Substrates for Serine Proteases <i>J. FAREED, G. KINDEL, H.L. MESSMORE and J.U. BALIS</i> | 237 |
| Plasma Kininogen, Plasma Renin Activity and Blood Pressure Responses in Sodium-induced Renal Hypertension in Rats <i>M-L. PYYKÖNEN, P. SÄYNÄVALAMMI, P. YLITALO, U. HAMBERG and H. VAPAATALO</i> | 249 |
| The Effect of Aprotinin on Luteolysis and Uterine Motility in Late Pregnancy and Parturition in Rats <i>E.T. WHALLEY and A.J. RILEY</i> | 261 |
| The Kinin System and Non-adrenergic, Non-cholinergic (NANC) Nerves in the Colon <i>I.J. ZEITLIN, B.J. JOHNSON, S. FASTH, L. HULTEN and C.C. EAGLESOM</i> | 269 |
| Improved Methods to Assay Contact Activation <i>J.P. SOULIER and D. GOZIN</i> | 271 |
| Concluding Remarks <i>U. HAMBERG</i> | 281 |
| Index | 283 |
