**IOP**

# Journal of Physics D **Applied Physics**

Volume 36 Number 17 7 September 2003

Online: [www.iop.org/journals/jphysd](http://www.iop.org/journals/jphysd)

Institute of **Physics** PUBLISHING

- 2110 **Discharge characterization in plasma electrolytic oxidation of aluminium**  
A L Yerokhin, L O Snizhko, N L Gurevina, A Leyland, A Pilkington and A Matthews

APPLIED SURFACES AND INTERFACES

- 2121 **Optical properties of CdTe nanoparticle thin films studied by spectroscopic ellipsometry**  
S Chandra, S Tripura Sundari, G Raghavan and A K Tyagi
- 2130 ***In situ* optical study of ozone interaction with polyphenylsulfide thin films**  
A K Hassan, J Greenway, A K Ray and A V Nabok
- 2134 **Electrical properties of ferroelectric YMnO<sub>3</sub> films deposited on n-type Si(111) substrates**  
S Parashar, A R Raju, C N R Rao, P Victor and S B Krupanidhi
- 2141 **Crystallization and optical properties of sol-gel-derived PbTiO<sub>3</sub> thin films**  
D Bao, X Yao, K Shinozaki and N Mizutani
- 2146 **Harmonic monitoring of the switched silicon etched process**  
V J Law, N F Thornhill, A J Kenyon, A Pagliarani, K Lee, M Watkins and L Lea

STRUCTURE AND PROPERTIES OF MATTER

- 2152 **Extraction of extinction, refraction and absorption properties in diffraction enhanced imaging**  
O Oltulu, Z Zhong, M Hasnah, M N Wernick and D Chapman
- 2157 **A self-similarity model for effective thermal conductivity of porous media**  
Y Ma, B Yu, D Zhang and M Zou

INTERDISCIPLINARY PHYSICS AND RELATED AREAS OF SCIENCE AND TECHNOLOGY

- 2165 **Improved superconducting properties of MgB<sub>2</sub> bulk materials prepared by sintering**  
A Asthana, C Shekhar, R Giri and O N Srivastava
- 2170 **On the possibility of microwelding with laser beams**  
V V Semak, G A Knorovsky and D O MacCallum

7 September 2003

## RAPID COMMUNICATIONS

- L63 Nanocomposite (Nd,Dy)(Fe,Co,Nb,B)<sub>5.5</sub>/α-Fe multilayer magnets with high performance**  
W Liu, Z D Zhang, J P Liu, Z R Dai, Z L Wang, X K Sun and D J Sellmyer
- L67 SiGe/Si microtubes fabricated on a silicon-on-insulator substrate**  
A Vorob'ev, P O Vaccaro, K Kubota, T Aida, T Tokuda, T Hayashi, Y Sakano, J Ohta and M Nunoshita
- L70 A polymer Schottky diode carrying a chimney for selective doping**  
K Tada, M Wada and M Onoda
- L74 Field ion emission: the effect of electrostatic field energy on the prediction of evaporation field and charge state**  
D N Zurlev and R G Forbes

## PAPERS

### APPLIED MAGNETISM, MAGNETIC MATERIALS AND SUPERCONDUCTIVITY

- 2031 Magnetization reversal in elliptical-ring nanomagnets**  
F J Castaño, C A Ross and A Eilez
- 2036 Barkhausen jumps and metastability**  
L Callegaro, E Puppini and M Zani

### PHOTONICS AND SEMICONDUCTOR DEVICE PHYSICS

- 2041 Radial optical confinement in nitride VCSELs**  
P Maćkowiak, R P Sarzała, M Wasiak and W Nakwaski
- 2046 Growing and welding branched-structure semiconducting In<sub>2</sub>O<sub>3</sub> nanowires**  
J Zhang, F Jiang and Z Dai
- 2050 In situ splitting of carbon nanotube bundles with atomic force microscopy**  
Z Shen, S Liu, S Hou, Z Gu and Z Xue
- 2054 Transient electroluminescence of molecularly doped poly(*N*-vinylcarbazole) light-emitting diodes**  
X Chen, Z Xu, Y Hou, S Liu, F Teng and X Xu

### EXPERIMENTAL, COMPUTATIONAL AND THEORETICAL PARTICLE BEAM AND PLASMA SCIENCE

- 2060 Investigations of silicon oxide UV emission in a non-thermal atmospheric plasma—comparison with synthetic spectra**  
O Motret, F Coursimault, R Viladrosa and J M Pouvesle
- 2067 Laser-induced phase explosions in lead, tin and other elements: microsecond regime and UV-emission**  
A V Pakhomov, M S Thompson and D A Gregory
- 2076 Wall effects on the chemistry in a pulsed oxygen/silane radiofrequency helicon plasma**  
C Charles
- 2083 Numerical simulation of an inductively coupled discharge using an Eulerian Vlasov code**  
M Shoucri, J P Matte and A Côté
- 2089 The effect of low direct voltage on streamer breakdown in long non-uniform air gaps**  
N L Aleksandrov, E M Bazelyan and V A Vasil'ev
- 2096 Plasma parameter bi-stability in e-beam sustained discharge in Xe**  
N A Dyatko and A P Napartovich
- 2102 Spectroscopic density and temperature measurements and modelling of a discharge plasma for neutralized ion-beam transport**  
C Niemann, F B Rosmej, A Tauschwitz, S Neff, D Penache, R Birkner, C Constantin, R Knobloch, R Presura, D H H Hoffmann, S S Yu and R W Lee
