# FATIGUE & FRACTURE OF ENGINEERING MATERIALS & STRUCTURES

**The International Journal**  
& the official journal of the European Group on Fracture

---

Volume 12, No. 2

CONTENTS

1989

- |   |     |  |
|---|-----|--|
| Akito Nitta, Takashi Ogata<br>and Kazuo Kuwabara                    | 77  | Fracture mechanisms and life assessment<br>under high-strain biaxial cyclic loading of<br>Type 304 stainless steel |
| R. Yuuki, K. Akita and N. Kishi                                     | 93  | The effect of biaxial stress state and<br>changes of state on fatigue crack growth<br>behaviour                    |
| G. C. Li, T. Guennouni<br>and D. François                           | 105 | Influence of secondary void damage in the<br>matrix material around voids  |
| H. Burlet, S. Vasseur, J. Besson<br>and A. Pineau                   | 123 | Crack growth behaviour in a thermal<br>fatigue test. Experiments and calculations                                  |
| G. B. Thomas, R. Hales,<br>J. Ramsdale, R. W. Suhr<br>and G. Sumner | 135 | A Code of Practice for constant-amplitude<br>low cycle fatigue testing at elevated tem-<br>peratures               |
| Ji-Liang Doong and Chun-Sheng Chen                                  | 155 | Fracture toughness of bainitic nodular<br>cast iron  |
|   | I   | Information on Conferences/Seminars  |
|   | III | Software Survey Section  |
|   | VII | New Patents  |

*Fatigue Fract. Engng Mater. Struct.* is indexed/abstracted in  
Current Contents, Engng Ind. Monthly & Author Index,  
PASCAL-CNRS Database, INSPEC

ISSN 8756-758X  
FFESEY 12(2) 77-166 (1989)
