CONTENTS

Volume 36 • N° 4 • July/August 2004

- A method for the dynamic management of genetic variability in dairy cattle
J.-J. COLLEAU, S. MOUREAUX, M. BRIEND, J. BECHU 373
- A study on the minimum number of loci required for genetic evaluation using a finite locus model
L.R. TOTIR, R.L. FERNANDO, J.C.M. DEKKERS, S.A. FERNÁNDEZ 395
- Detection of multiple QTL with epistatic effects under a mixed inheritance model in an outbred population
A. NARITA, Y. SASAKI 415
- Response to mass selection when the genotype by environment interaction is modelled as a linear reaction norm
R. KOLMODIN, P. BIJMA 435
- A simulation study on the accuracy of position and effect estimates of linked QTL and their asymptotic standard deviations using multiple interval mapping in an F₂ scheme
M. MAYER, Y. LIU, G. FREYER 455
- Genetic variations of the porcine *PRKAG3* gene in Chinese indigenous pig breeds
L.-S. HUANG, J.-W. MA, J. REN, N.-S. DING, Y.-M. GUO, H.-S. AI, L. LI, L.-H. ZHOU, C.-Y. CHEN 481
