COMPTES RENDUS BIOLOGIES

ACADÉMIE DES SCIENCES, PARIS

2004 – Tome 327 – N° 12

Revue / Review

- Thrombin: a paradigm for enzymes allosterically activated by monovalent cations
Enrico Di Cera 1065
- Fire and death: the pyrin domain joins the death-domain superfamily
Andreas Kohl, Markus G. Grütter 1077

Biomodélisation / Biological modelling

- Genetic determinism of parasitic circadian periodicity and subperiodicity in human lymphatic filariasis
Gaston Pichon, Jean-Pierre Treuil 1087

Génétique / Genetics

- Mitochondrial diseases preferentially involve proteins with prokaryote homologues
Yves Tourmen, Marc Ferré, Yves Malthièry, Philippe Dessen, Pascal Reynier 1095
- Spatial distribution of the copepod *Centropages typicus* in Ligurian Sea (NW Mediterranean). Role of surface currents estimated by Topex-Poseidon altimetry
Juan Carlos Molinero, Paul Nival 1103

Biologie des populations / Population biology

- Nuclear-DNA markers confirm the presence of two anchovy species in the Mediterranean
Philippe Borsa, Adeline Collet, Jean-Dominique Durand 1113

Épidémiologie / Epidemiology

- Épidémiologie et canicules : analyses de la vague de chaleur 2003 en France
Alain-Jacques Valleron, Ariane Boumendil .. 1125

Écologie / Ecology

- Performance of differential GPS collars in temperate mountain forest
Georges Janeau, Christophe Adrados, Jean Joachim, Jean-Paul Gendner, Dominique Pépin 1143
- Troglobitic scorpions: a new genus and species from Brazil
Wilson R. Lourenço, Renner Luiz Cerqueira Baptista, Alessandro Ponce de Leão Giupponi 1151
- The impacts of logging on the microhabitats used by two species of couas in the western forest of Madagascar
Philippe Chouteau 1157

Index / Indexes 2004 (vol. 327) 1171
