203 AKZO NOBEL

Happier times ahead?

After suffering health scares, stagnant markets and plummeting prices, Akzo Nobel is looking forward to the year ahead. Graham Lawton reports.

206 EUROPEAN PATENTS

207 UK ENVIRONMENT

UK contaminated land policy: where on Earth are we?

It has been a long time coming, but the UK's official policy on contaminated land is at last taking shape. Hugh Devas of Rowe & Maw takes a look at the legislation.

212 PETROCHEMICALS

Polyethylene: new directions for a commodity thermoplastic

Even though it's been around for over 60 years, the market for polyethylene is still expanding, as Robin Harvan of Bonner & Moore reveals.

219 MATERIALS

In search of non-stick coatings

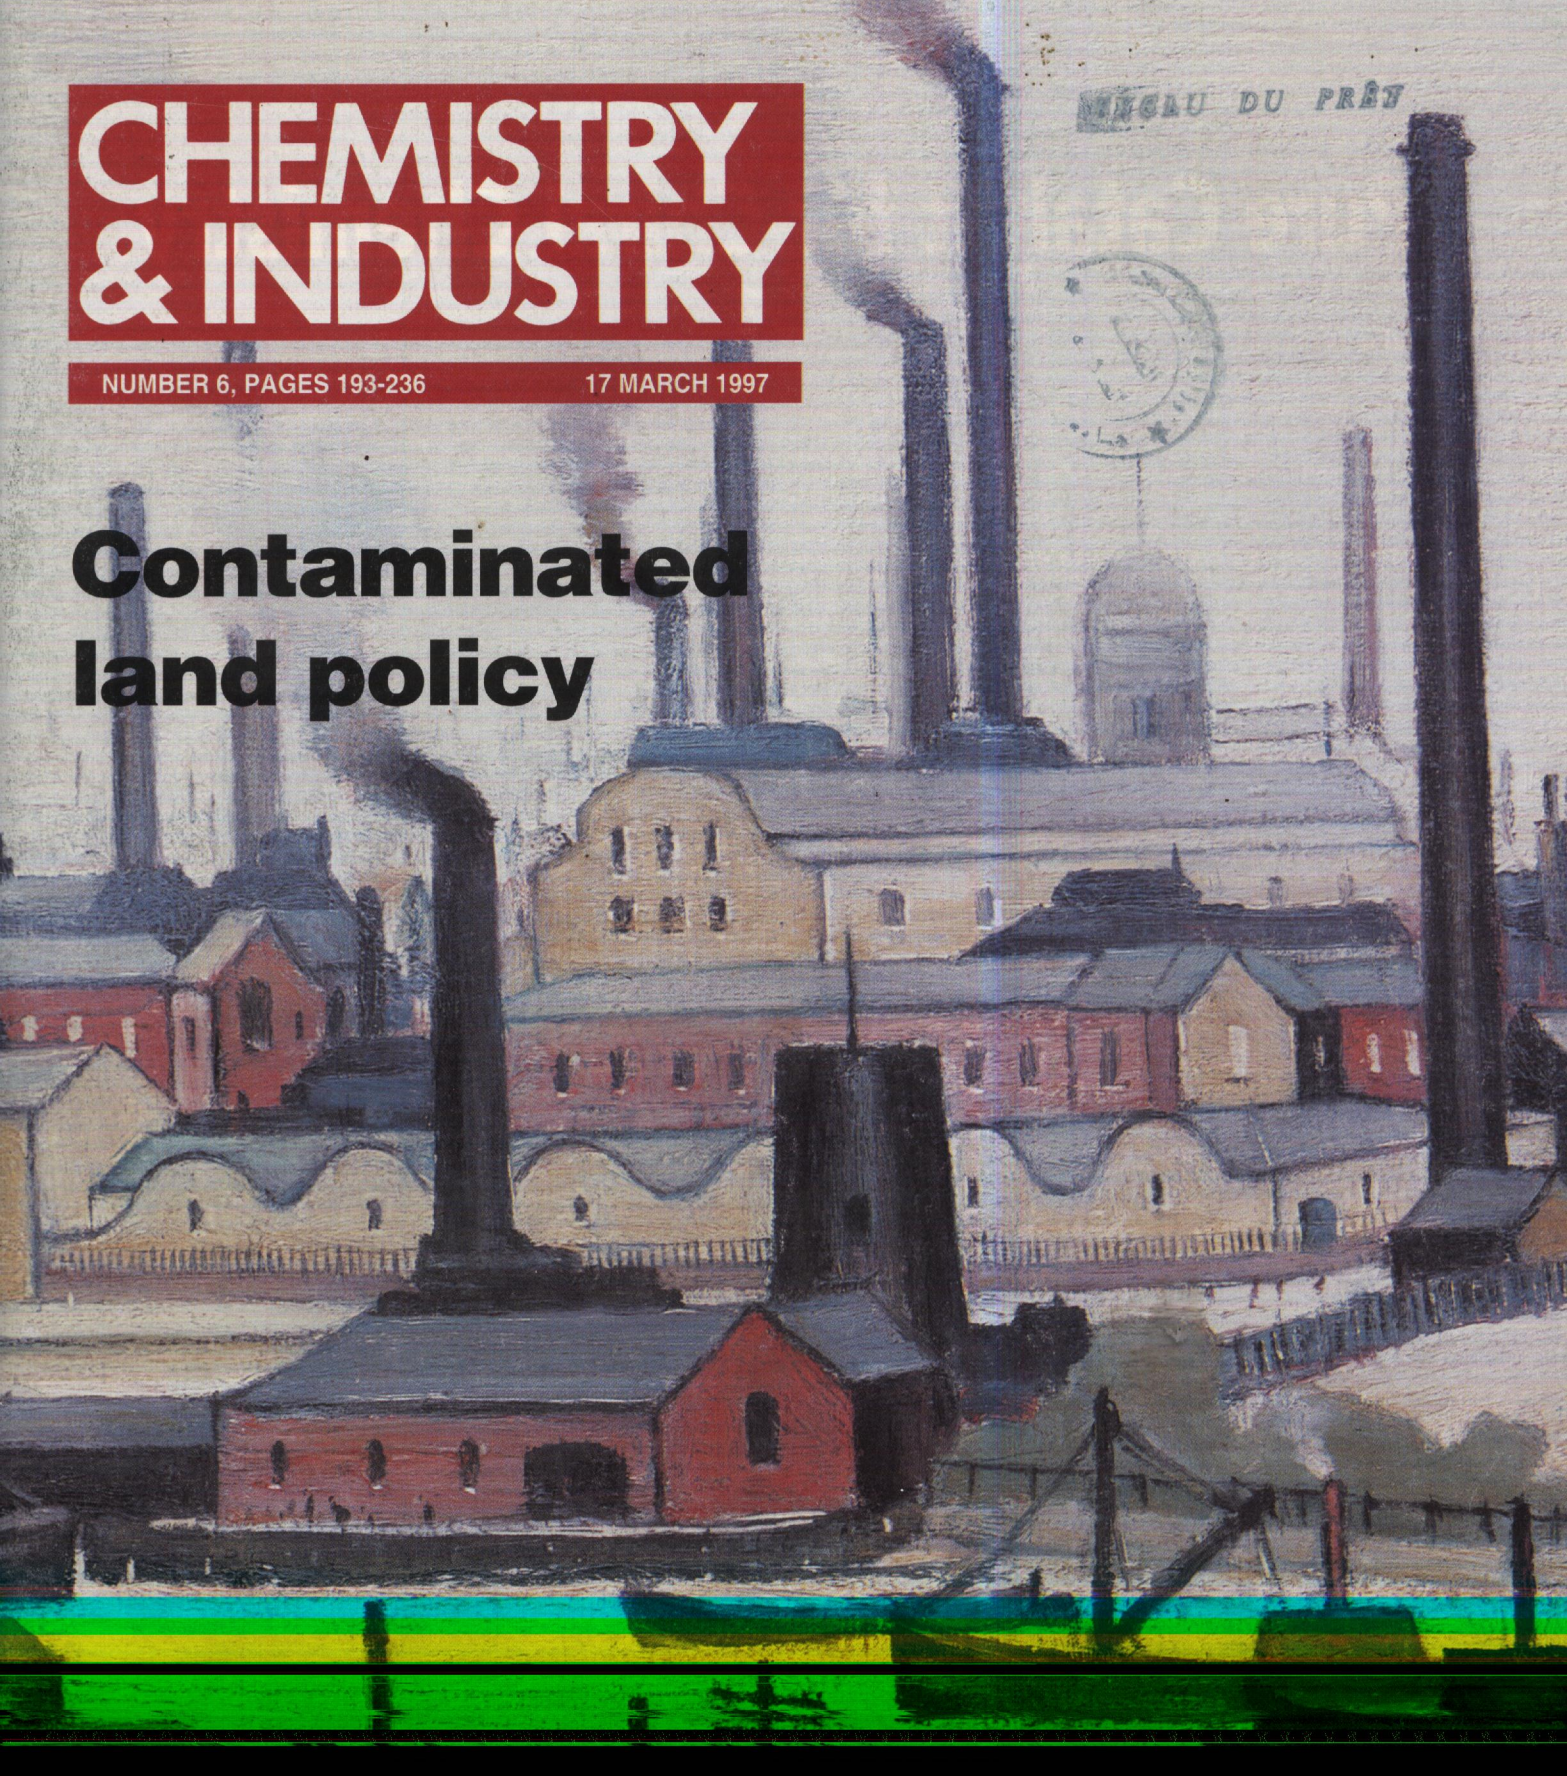

The battle against Nature to generate truly non-stick coatings is proving to be a long, hard fight. Robert Brady Jr of the US Naval Research Laboratory delves into this sticky problem.
