Construction engineering

NOTE

Christopher Kennedy, Wenxi Olivia He,
and Manson Fung 155-159

Ingénierie de la construction

NOTE

Role of the construction sector in the economy of a city

Engineering mechanics

ARTICLE

J.M.W. Brownjohn, A. Pavic, and
P. Omenzetter 65-77

Mécanique appliquée

ARTICLE

A spectral density approach for modelling continuous
vertical forces on pedestrian structures due to walking

Environmental engineering

ARTICLE

Yi-Lung Yeh and Ting-Chien Chen 56-64

Ingénierie de l'environnement

ARTICLE

Application of grey correlation analysis for evaluating the
artificial lake site in Pingtung Plain, Taiwan

Hydrotechnical engineering

ARTICLES

C.A. Gonzalez and H. Chanson 33-44

Bülent Selek, M. Salih Kirkgöz, and
Zeliha Selek 78-85

F. Zhou, F. Hicks, and P. Steffler 86-94

Mahmod Reza Sahebi, Ferdinand Bonn,
and Goze B. Bénié 95-108

O. Seidou, B. Robert, C. Marche,
J. Rousselle et M. Lefebvre 146-154

Hydraulique

ARTICLES

Interactions between cavity flow and main stream
skimming flows: an experimental study

Comparison of computed water hammer pressures with test
results for the Çatalan power plant in Turkey

Analysis of effects of air pocket on hydraulic failure of
urban drainage infrastructure

Neural networks for the inversion of soil surface
parameters from synthetic aperture radar satellite data

Construction probabiliste de scénarios d'apports à un
réservoir

Continued on inside back cover / Suite au verso

Front cover: Skimming flow downs Camp Dyer Diversion Dam spillway — unprotected RCC stepped spillway over an old masonry weir (courtesy of the US Bureau of Reclamation) (see Gonzalez and Chanson in this issue, pp. 33-44).

Page couverture : Écoulement turbulent passant à travers l'évacuateur de crues en marches d'escalier du barrage de diversion Camp Dyer — évacuateur de crues en marches d'escalier non protégé au-dessus d'un vieil ouvrage de retenue en maçonnerie (courtoisie du US Bureau of Reclamation) (voir Gonzalez et Chanson dans ce numéro, pp. 33-44).
