

# Advances in Water and Wastewater Treatment

---

---

**ASCE**

# Contents

## *Wastewater Treatment*

<b>Impact of Global Warming Concerns on Wastewater Treatment Plant Design and Operation .....</b>	<b>1</b>
Glen T. Daigger, Ralph A. Peterson, Jay Witherspoon, and Eleanor Allen	
<b>Decision Making for Sustainable Development of Wastewater Infrastructure.....</b>	<b>20</b>
Barbara R. Bradley and Glen T. Daigger	
<b>Bacterial Production of Bioplastics .....</b>	<b>42</b>
F. Ben Rebah, S. Yan, Y. Filali-Meknassi, R. D. Tyagi, and R. Y. Surampalli	
<b>Determining the Fate and Biodegradation Kinetics of Toxic Organic Compounds in Activated Sludge Treatment Systems .....</b>	<b>72</b>
Timothy G. Ellis	
<b>Recent Advances in Biological Nutrient Removal Technology.....</b>	<b>101</b>
Glen T. Daigger	
<b>Nutrient Removal in Fixed-Film Processes: Current Design Practices .....</b>	<b>117</b>
Glen T. Daigger	
<b>Nutrient Removal Technologies / Alternatives for Small Communities.....</b>	<b>133</b>
Glen T. Daigger	
<b>Recent Advances in Wastewater Treatment in Sequencing Batch Reactor .....</b>	<b>148</b>
Song Yan, Y. Filali-Meknassi, R. D. Tyagi, and R. Y. Surampalli	
<b>Free-Surface Wetland Technology Assessment.....</b>	<b>178</b>
R. A. Gearheart, Brad A. Finney, Margaret Lang, and Jeff Anderson	
<b>Subsurface-Flow Constructed Wetlands Wastewater Treatment .....</b>	<b>209</b>
M. F. Dahab and R. Y. Surampalli	
<b>Constructed Wetlands for Small Community Wastewater Treatment.....</b>	<b>228</b>
Michael H. Ogden	
<b>Use of Constructed Wetlands in Water Quality Management .....</b>	<b>234</b>
Gerard R. Miller, Gary L. Hunter, and Les K. Lampe	

Update on Secondary Clarifiers: Design, Operation, and Performance.....	244
Eric J. Wahlberg	
Simultaneous Sewage Sludge Digestion and Metal Leaching .....	261
R. D. Tyagi and R. Y. Surampalli	
Pathogen Reduction in Municipal Biosolids Treatment Systems.....	273
Mohamed F. Dahab and Rao Y. Surampalli	
Biosolids Composting.....	284
Lewis M. Naylor	
Water Reclamation and Reuse Criteria .....	303
James Crook	
Elimination of Overflows and Bypasses in Separate Sanitary Sewer Systems .....	330
Mark G. Wade	
Utility Competitiveness: A Benchmarking Study .....	341
G. David Waltrip and Robert Rutherford	
<i>Water Treatment</i>	
Watershed Management: Its Importance to Solving Water Supply and Wastewater Treatment Challenges.....	348
Paul L. Freedman	
Occurrence and Control of Atrazine in Midwestern Surface Water Supplies .....	356
Stephen J. Randtke, Aaron A. Witt, Patricia V. Adams, Richard E. Pancake, and Craig D. Adams	
Radon Removal Technologies for Small Communities .....	395
Joseph A. Drago	
Modeling Water Quality Changes in Distribution Systems.....	412
Robert M. Clark	
Innovative Methodologies and Technologies for Water Main Rehabilitation and Replacement Program Development.....	440
Arun K. Deb	
Characterizing Microbial and DBP Risk Tradeoffs in Drinking Water: Application of the CRFM .....	456
Robert M. Clark and Glenn Rice	

Innovative Methodologies and Technologies for Water Main Rehabilitation and Replacement Program Development .....	440
Arun K. Deb	
Characterizing Microbial and DBP Risk Tradeoffs in Drinking Water: Application of the CRFM .....	456
Robert M. Clark and Glenn Rice	
Emerging Pathogens and their Relationship to Drinking Water .....	473
H. D. Alan Lindquist	
<i>Cryptosporidium</i> and <i>Giardia</i> Contamination and Removal .....	487
Gary S. Logsdon, Scott D. N. Freeman, Robert A. Hulsey, and Srinivas Veerapaneni	
Alternative Disinfection Technologies and Strategies for Inactivating Protozoan Cysts.....	520
Lehand L. Harms	
Control of Disinfection By-Product (DBP) Precursors.....	527
Holly L. Shomey and Scott Freeman	
Management of Water Treatment Plant Residuals .....	543
Bruce E. Burris and James E. Smith, Jr.	
Subject Index.....	583
Author Index .....	585
