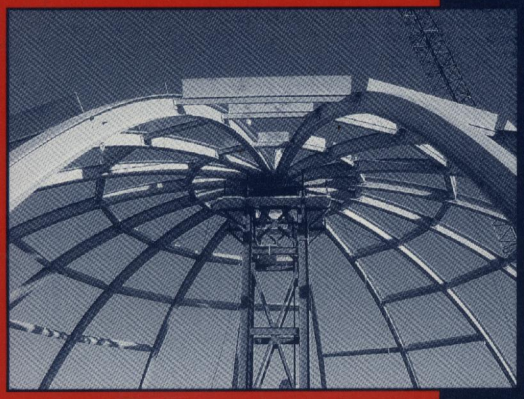
Volume 129, Number 1

ISSN 0733-9445
CODEN: JSENDH



Journal of Structural Engineering

1 Editor's Note
C. Dale Buckner

Technical Papers

3 Local Web Buckling Strength of Coped Steel I Beams
Michael C. H. Yam, Angus C. C. Lam, V. P. Iu, and J. J. R. Cheng

12 Shear Connection Nonlinearity and Deflections of Steel–Concrete Composite Beams: A Simplified Method
Ciro Faella, Enzo Martinelli, and Emidio Nigro

21 Stress and Strain Concentration Factors of Completely Overlapped Tubular K(N) Joints
W. M. Gho, T. C. Fung, and C. K. Soh

30 Strengthening of Steel-Concrete Composite Girders Using Carbon Fiber Reinforced Polymers Sheets
M. Tavakkolizadeh and H. Saadatmanesh

41 Plastic Resistance of Pipe Sections: Upper Bound Solution
Magdi Mohareb

49 Effects of Stiffeners on Nonlinear Stability of Self-Erecting Dome
Vinasithamby Ragavan and Amde M. Amde

56 Structural Reliability/Redundancy under Earthquakes
Y. K. Wen and S.-H. Song

68 Concrete-Filled Hollow Structural Steel Columns after Exposure to ISO-834 Fire Standard
Lin-Hai Han and Jing-si Huo

79 Plastic Limit Temperatures of Flexibly Connected Steel Frames: A Linear Programming Problem
V. Vimonsatit, K. H. Tan, and S. K. Ting

contents continue on back cover

SEI
Technical Activities Division of the Structural Engineering Institute

contents continued from front cover

87 Moment Magnifier Method for Long-Term Behavior of Flat Plates Subjected to In-Plane Compression
K. Choi, H. Park, and Y. Shin

96 Tendon Model for Nonlinear Analysis of Externally Prestressed Concrete Structures
Xiao-Han Wu and Xilin Lu

105 Flexural Design of Reinforced Concrete Frames Using a Genetic Algorithm
Charles V. Camp, Shahram Pezeshk, and Håkan Hansson

116 Application of Dynamic System Identification to Timber Bridges
S. T. Peterson, D. I. McLean, and D. G. Pollock

Technical Notes

125 Local Buckling of Composite Fiber-Reinforced Plastic Wide-Flange Sections
Pizhong Qiao and Guiping Zou

130 Calculation of Moments on Top Slab in Single-Cell Box Girders
Q. Z. Luo, J. Tang, and Q. S. Li

Discussions and Closures

135 Discussion of "Inelastic Large Deflection Modeling of Beam-Columns" by Morteza A. M. Torkamani and Mustafa Sonmez
Ji Yuan and Genshu Tong

136 Closure by *Morteza A. M. Torkamani and Mustafa Sonmez*
