

Genetics Selection Evolution

Genet. Sel. Evol. 32 (5) 467-546

September • October 2000

ISSN 0999-193X

- Computation of identity by descent probabilities conditional on DNA markers *via* a Monte Carlo Markov Chain method
M. PÉREZ-ENCISO, L. VARONA, M.F. ROTHSCHILD 467
- Genetic correlation estimations between artificial insemination sire performances and their progeny beef traits both measured in test stations
M.N. FOUILLOUX, G. RENAND, J. GAILLARD, F. MÉNISSIER 483
- Experimental study of the efficiency of a reduced index in *Tribolium*
J.L. CAMPO, H. TURRADO 501
- A first genotyping assay of French cattle breeds based on a new allele of the *extension* gene encoding the melanocortin-1 receptor (Mc1r)
F. ROUZAUD, J. MARTIN, P.F. GALLET, D. DELOURME, V. GOULEMOT-LEGER, Y. AMIGUES, F. MÉNISSIER, H. LEVÉZIEL, R. JULIEN, A. OULMOUDEN 511
- Messenger RNA levels and transcription rates of hepatic lipogenesis genes in genetically lean and fat chickens
S. DAVAL, S. LAGARRIGUE, M. DOUAIRE 521
- Differentiation of the Italian wolf and the domestic dog based on microsatellite analysis
G. DOLF, J. SCHLÄPFER, C. GAILLARD, E. RANDI, V. LUCCHINI, U. BREITENMOSER, N. STAHLBERGER-SAITBEKOVA 533
