# CHEMISTRY & INDUSTRY

NUMBER 2, PAGES 29-60

22 JANUARY 2001

Genetically modifying monkeys, p37

Shire's thrombocythaemia drug gains orphan status, p34

Harnessing energy from the sea floor, p32

## 30 LETTERS

## 31 NEWS

- ◆ GSK takes *Trizivir* to the single market
- ◆ Industry taken to task over pricing too low
- ◆ Crystals push ocean history back by 100 million years
- ◆ US report criticises science textbooks

## 35 POLICY

### Sweden's EU reign prioritises environment

Sweden's presidency of the European Union's Council of Ministers promises to be controversial as Claire Curran reports.

## 37 AFTERWORDS

## 38 COMMENT

### Believe in science

Europe has a fine history of scientific advance, but is losing out to the US, says Sir John Browne. Now science must work to transcend the tradeoff between progress and protection of the environment, and regain public confidence.

## 40 PATENTS

## 42 HEALTH

### The roots of a healthy diet?

The benefits of eating fruits and vegetables have long been known. Now evidence is showing that phytonutrients can help protect against cardiovascular disease and cancer, as Peter Berry Ottaway reveals.

## 45 EDUCATION

### Science at work

Alan Heaton reports on his involvement in a project aimed at improving young people's perception of the chemical industry.
