NUMBER 21, PAGES 677-712

5 NOVEMBER 2001

*Chemical security comes under scrutiny, p679*

*Following single molecular movement, p682*

## 678 LETTERS

## 679 NEWS

- ◆ US anthrax thought to be cultured locally
- ◆ DuPont sales down by 14%
- ◆ Foot & mouth curbs on UK meat exports to be eased
- ◆ GSK posts strong third quarter results thanks to blockbuster drugs

## 681 ANTHRAX

### US takes a 'hypocritical' stance on *Cipro*

Public panic over anthrax treatment has led the US and Canada to take an about-turn on compulsory action, as Richard Butler reports.

## 686 AFTERWORDS

## 687 PATENTS

## 688 LISBON

### Looking beyond the bunker

Image, licence to operate and building on sustainable development were key themes in Lisbon at the SCI annual European meeting. Simon Robinson reports.

## ADHESIVES

## 691 Smart adhesives

Gone are the days when adhesives only joined. Advances in adhesion science are producing smart materials with added-value functionality. Martin Fakley of Permabond explains.

## 696 Adhesives under pressure

High costs and environmental pressure have forced the market to move away from traditional adhesives, creating niches for specific pressure-sensitive adhesives. Claire Curran reports.
