2003 VOL. 22 □ N° 4

July-August

# EUROPEAN JOURNAL OF MECHANICS

## B/FLUIDS

An official medium of publication for EUROMECH "European Mechanics Society"

Eur. J. Mech. B - Fluids, 22, n° 4, 2003

A. Kurkin E. Pelinovsky	Shallow-water edge waves above an inclined bottom slowly varied in along-shore direction .....	305
P. Scandura	Two-dimensional perturbations in a suddenly blocked channel flow .....	317
P. Kuzhir G. Bossis V. Bashtovoi O. Volkova	Flow of magnetorheological fluid through porous media .....	331
P. Moresco T. Alboussière	Weakly nonlinear stability of Hartmann boundary layers .....	345
J. Meseguer J.L. Espino J.M. Perales A. Laverón-Simavilla	On the breaking of long, axisymmetric liquid bridges between unequal supporting disks at minimum volume stability limit .....	355
U.J. Sánchez Domínguez	Influence of the nutation angle in gravitational settling of particles near vortices and in turbulence .....	369
J.M. Österlund B. Lindgren Å.V. Johansson	Flow structures in zero pressure-gradient turbulent boundary layers at high Reynolds numbers .....	379
C.E. Siewert	Heat transfer and evaporation/condensation problems based on the linearized Boltzmann equation .....	391
