Lecture Notes in Artificial Intelligence 990
Subseries of Lecture Notes in Computer Science

Carlos Pinto-Ferreira
Nuno J. Mamede (Eds.)

# Progress in Artificial Intelligence

7th Portuguese Conference
on Artificial Intelligence, EPIA '95
Funchal, Madeira Island, Portugal, October 1995
Proceedings

Springer

# Table of Contents

## Automated Reasoning and Theorem Proving

**Terminological Meta-Reasoning by Reification and Multiple Contexts** ..... 1
Klemens Schnattinger, Udo Hahn and Manfred Klenner
CLIF, Freiburg University, Germany

**A New Continuous Propositional Logic** ..... 17
Riccardo Poli, Mark Ryan and Aaron Sloman
SCS, The University of Birmingham, UK

**Super-Polynomial Speed-Ups in Proof Length by New Tautologies** ..... 29
Uwe Egly
FG Intellektik, TH Darmstadt, Germany

## Belief Revision

**Belief Revision in Non-Monotonic Reasoning** ..... 41
José Alferes, Luís Moniz Pereira and T. Przymusinski
DM, U. Évora, and CRIA, U. Nova de Lisboa, Portugal, and
University of California at Riverside, USA

**A New Representation of JTMS** ..... 57
Truong Quoc Dung
IRIDIA, Université Libre de Bruxelles, Belgium

## Constraint-Based Reasoning

**The Retrieval Problem in a Concept Language with Number Restrictions** ..... 69
Aida Vitória, Margarida Mamede and Luís Monteiro
DI, Universidade Nova de Lisboa, Portugal

**Formalizing Local Propagation in Constraint Maintenance Systems** ..... 83
Gilles Trombettoni
INRIA-CERMICS, France

**A Dependency Parser of Korean Based on Connectionist/Symbolic Techniques** ..... 95
Jong-Hyeok Lee and Geunbae Lee
Pohang University of Science and Technology, Korea

**A Symbiotic Approach to Arc and Path Consistency Checking** ...107
Pierre Berlandier
INRIA-CERMICS, France

## Distributed Artificial Intelligence

**Where Do Intentions Come From?: A Framework for Goals and Intentions Adoption, Derivation and Evolution** ..... 115
Graça Gaspar and Helder Coelho
Faculdade de Ciências de Lisboa, and INESC, Portugal

**A Closer Look to Artificial Learning Environments** .....129
Helder Coelho, Augusto Eusébio and Ernesto Costa
INESC, Portugal, and DEI, Universidade de Coimbra, Portugal

**Building Multi-Agent Societies from Descriptions to Systems: Inter-Layer Translations** ..... 143
Helder Coelho, Luis Antunes and Luis Moniz
INESC, Portugal

## Genetic Algorithms

**GA/TS: A Hybrid Approach for Job Shop Scheduling in a Production System** .....153
José Ramón Zubizarreta Aizpuru and Javier Arrieta Usunáriz
Facultad de Informática de San Sebastian, Spain

## Machine Learning

**A Controlled Experiment: Evolution for Learning Difficult Image Classification** .....165
Astro Teller and Manuela Veloso
Carnegie Mellon University, USA

**Minimal Model Complexity Search** .....177
Chris McConnell
CMU School of Computer Science, USA

**Characterization of Classification Algorithms** ..... 189
João Gama and Pavel Brazdil
LIACC, Universidade do Porto, Portugal

## Neural Networks

**Neurons, Glia and the Borderline Between Subsymbolic and Symbolic Processing** ..... 201
J. G. Wallace, K. Bluff
Swinburne University of Technology, Australia

## Non-Monotonic Reasoning

**Arguments and Defeat in Argument-Based Nonmonotonic Reasoning** ..... 213
Bart Verheij
University of Limburg, The Netherlands

**A Preference Semantics for Ground Nonmonotonic Modal Logics** ..... 225
Daniele Nardi and Riccardo Rosati
DIS, Università di Roma "La Sapienza", Italy

**Logical Omniscience vs. Logical Ignorance On a Dilemma of Epistemic Logic** ..... 237
Ho Ngoc Duc
ILPS, University of Leipzig, Germany

## Planning and Case-Based Reasoning

**On the Role of Splitting and Merging Past Cases for Generation of a New Solution** ..... 249
Carlos Bento, Penousal Machado and Ernesto Costa
DEI, Universidade de Coimbra, Portugal

**Theorem Proving by Analogy – A Compelling Example** ..... 261
Erica Melis
Department of AI, University of Edimburgh, Scotland

**Non-Atomic Actions in the Situation Calculus** ..... 273
José Júlio Alferes, Renwei Li and Luís Moniz Pereira
CRIA and DCS, Universidade Nova de Lisboa, Portugal

**Planning Under Uncertainty: A Qualitative Approach** ..... 285
Nikos I. Karacapilidis
FIT.KI, GMD, Sankt Augustin, Germany

## Qualitative Reasoning

**Qualitative Reasoning Under Uncertainty** ..... 297
Daniel Pacholczyk
DMI, U.F.R., Sciences d'Angers, France

**Systematic Construction of Qualitative Physics-Based Rules for Process Diagnostics** ..... 311
Jaques Reifman and Thomas Y.C. Wei
Argonne National Laboratory, USA

## Robotics and Control

**Integrated Process Supervision: A Structured Approach to Expert Control** ..... 323
Chai Quek, P.W. Ng, M. Pasquier
Nanyang Technological University, Singapore

**Using Stochastic Grammars to Learn Robotic Tasks** ..... 335
Pedro U. Lima and George N. Saridis
ISR, Technical Univ. of Lisbon, Portugal, and Rensselaer Polytechnic Institute, USA

## Theory of Computation

**Constraint Categorial Grammars** ..... 347
Luís Damas and Nelma Moreira
LIACC, Universidade do Porto, Portugal

**A New Translation Algorithm from Lambda Calculus into Combinatory Logic** ..... 359
Sabine Broda and Luís Damas
LIACC, Universidade do Porto, Portugal

# Table of Contents — Posters

**Interlocking Multi-Agent and Blackboard Architectures** ..... 371
Bernhard Kipper
DCS, University of Saarbrücken, Germany

**A Model Theory for Paraconsistent Logic Programming** ..... 377
Carlos Viegas Damásio and Luís Moniz Pereira
CRIA, and DCS, Universidade Nova de Lisboa, Portugal

**Promoting Software Reuse Through Explicit Knowledge Representation** ..... 387
Carmen Fernández-Chamizo, Pedro Antonio González-Calero and Mercedes Gómez-Albarrán
Universidad Complutense de Madrid, Spain

**Efficient Learning in Multi-Layered Perceptron Using the Grow-And-Learn Algorithm** ..... 397
Gildas Cherruel, Bassel Solaiman and Yvon Autret
Univ. de Bretagne Occidentale, and TNI, and ENSTB, France

**An Non-Diffident Combinatorial Optimization Algorithm** ..... 403
Gilles Trombettoni, Bertrand Neveu, Pierre Berlandier, Maria-Cristina Riff and Mouhssine Bouzoubaa
INRIA-CERMICS, France

**Modelling Diagnosis Systems with Logic Programming** ..... 409
Iara de Almeida Móra, José Júlio Alferes
CRIA, U. Nova de Lisboa, and DM, U. Évora, Portugal

**Agreement: A Logical Approach to Approximate Reasoning** ..... 419
Luis M. M. Custódio and Carlos A. Pinto-Ferreira
ISR, Technical University of Lisbon, Portugal

**Constructing Extensions by Resolving a System of Linear Equations** ..... 429
Messaoudi Nadia
Université Aix-Marseille II, France

**Presenting Significant Information in Expert System Explanation** ..... 435
Michael Wolverton
Daresbury Rutherford Appleton Laboratory, UK

**A Cognitive Model of Problem Solving with Incomplete Information** ..... 441
Nathalie Chaignaud
LIPN, Université Paris-Nord, France

**Filtering Software Specifications Written in Natural Language** ... 447
Núria Castell and Àngels Hernández
Universitat Politècnica de Catalunya, Spain

**Parsimonious Diagnosis in SNePS** ..... 457
Pedro A. de Matos and João P. Martins
DEM, Technical University of Lisbon, Portugal

**Syntactic and Semantic Filtering in a Chart Parser** ..... 465
Sayan Bhattacharyya, Steven L. Lytinen
University of Michigan, and DePaul University, USA

**GA Approach to Solving Multiple Vehicle Routing Problem** ..... 473
Slavko Krajcar, Davor Skrlec, Branko Pribicevic and Snjezana Blagajac
Faculty of Electrical Eng. and Computing, Croatia

**Multilevel Refinement Planning in an Interval-Based Temporal Logic** ..... 482
Werner Stephan and Susanne Biundo
German Research Center for AI, Germany
