

Lecture Notes in Artificial Intelligence 981

Subseries of Lecture Notes in Computer Science

**Ipke Wachsmuth Claus-Rainer Rollinger
Wilfried Brauer (Eds.)**

KI-95: Advances in Artificial Intelligence

19th Annual German Conference on Artificial Intelligence
Bielefeld, Germany, September 1995
Proceedings

Springer

Contents

Invited Papers

From Intelligence Models to Intelligent Systems

Partially Observable Markov Decision Processes for Artificial Intelligence 1

*Leslie Pack Kaelbling, Michael L. Littman, and Anthony R. Cassandra,
Brown University*

Robust Processing of Natural Language 19

Wolfgang Menzel, University of Hamburg

Distinction Networks 35

William Bricken, Oz...International, Ltd.

The Problem of Signal and Symbol Integration: A Study of Cooperative
Mobile Autonomous Agent Behaviors 49

Ruzena Bajcsy and Jana Košecká, University of Pennsylvania

Knowledge Organization and Optimization

An Extension of Explanation-Based Generalization to Negation as Failure 65

Stefan Schrödl, University of Freiburg

Inducing Integrity Constraints from Knowledge Bases 77

Roman Englert, University of Bonn

Dynamic Structuring of Lexical Knowledge in a Reusability Scenario 89

Wilfried Hötker, University of Osnabrück

Efficient Memory-Limited Graph Search 101

Jürgen Eckerle and Sven Schuierer, University of Freiburg

Logic and Reasoning

Quality-Based Terminological Reasoning for Concept Learning 113

*Klemens Schnattinger, Udo Hahn, and Manfred Klenner, University of
Freiburg*

Task Acquisition with a Description Logic Reasoner 125

*M. Buchheit, H.-J. Bürkert, B. Hollunder, A. Laux, W. Nutt, M. Wójcik,
German Research Center for Artificial Intelligence (DFKI)*

Parallelizing Description Logics	137
<i>Frank W. Bergmann and J. Joachim Quantz, Technical University of Berlin</i>	
Automated Termination Proofs with Measure Functions	149
<i>Jürgen Giesl, Technical University of Darmstadt</i>	
Nonmonotony	
What Is A Skeptical Proof?	161
<i>Michael Thielscher, Technical University of Darmstadt</i>	
Default Entailment - A Preferential Construction Semantics for Defeasible Inference	173
<i>Emil Weydert, Max-Planck-Institute for Computer Science, Saarbrücken</i>	
Action and Change	
Actions that Make you Change your Mind	185
<i>B. van Linder, W. van der Hoek, and J.-J.Ch. Meyer, Utrecht University</i>	
Reasoning about Action with Typical and Atypical Effects	197
<i>Anna Radzikowska, Warsaw University of Technology</i>	
Reasoning about Action and Change: Actions with Abnormal Effects	209
<i>Witold Lukaszewicz and Ewa Madalińska-Bugaj, Warsaw University</i>	
Temporal Logic Based on Characteristic Functions	221
<i>Maroua Bouzid, CRIN-CNRS & INRIA, France, and Antonio Ligeza, Institute of Automatics AGH, Cracow, Poland</i>	
Spatial Reasoning	
Computational Properties of Qualitative Spatial Reasoning: First Results	233
<i>Bernhard Nebel, University of Ulm</i>	
An Empirically Validated Model for Computing Spatial Relations	245
<i>Klaus-Peter Gapp, University of Saarland</i>	
Integrating Vision and Language: Towards Automatic Description of Human Movements	257
<i>Gerd Herzog, University of Saarland and Karl Rohr, University of Hamburg</i>	
Author Index	269
