Construction science Volume 1 **B. J. Smith**
Construction science Volume 2 **B. J. Smith**
Construction mathematics Volume 1 **M. K. Jones**
Construction mathematics Volume 2 **M. K. Jones**
Construction surveying **G. A. Scott**
Materials and structures **R. Whitlow**
Construction technology Volume 1 **R. Chudley**
Construction technology Volume 2 **R. Chudley**
Construction technology Volume 3 **R. Chudley**
Construction technology Volume 4 **R. Chudley**
Building services and equipment Volume 1 **F. Hall**
Building Organisation and Procedures **G. Forster**

Contents

Preface v

Acknowledgements v

Chapter 1 Pipe sizing for hot- and cold-water installations 1

Design principles 1
Effective length of pipe 2
Determination of pipe diameter 2
Pipe sizing for multi-storey buildings 3
Tabulation 3
Pipe sizing for hot-water systems 6
Relative discharging power of pipes 7
Thomas Box formula 7

Chapter 2 Electrical terms and calculations 8

Definition of terms 8
Electrical calculations 11

Chapter 3 Supply and distribution of electricity 13

The public supply of electricity 13
The National 'Grid' system 13
Area boards 13
Supply to small buildings 13
Supply controls 15
Protection against excess current 16
Earthing 16
Bonding of services 16
Conductor and cable rating 16
Domestic cable sizing 18
Methods of wiring 18
Distribution systems 22
Single-phase power circuits 22
Emergency supplies 26

Chapter 4 Electrical installations in large buildings 27

Distribution principles 27
Floor ducts 31

Chapter 5 Site electricity, space heating, telephones 33

Site electricity 33
Electric space heating 37
Telephone installations 41

Chapter 6 Gas supply and distribution 42

Gas supply 42
Gas services in buildings 43
The gas refrigerator 54

Chapter 7 Gas controls, safety devices, heating and flues 55

Gas cocks 55
Pressure governor 55
Thermostats 55
Flame-failure device 57
Gas space heating 59
Flues for gas appliances 60
Calculation of gas consumption 68

Chapter 8 Sprinklers, risers and hose reel installations 69

Fire-fighting equipment 69
Sprinkler systems 69
Classification of fire risks 79
Dry and wet risers 79
Hose-reel installations 81

Chapter 9 Portable and fixed extinguishers – detectors 85

Portable fire extinguishers 85
Fixed extinguisher installations 90
Automatic fire detectors 94
Alarms 98
Fire dampers 98
Pressurisation of escape routes 101
Automatic fire ventilation 101
Control of smoke in covered shopping centres 102

Chapter 10 Burglar alarms 105

- Principles 105
 - Elements of installation 105
 - Detection devices 107
-

Chapter 11 Lifts and escalators 111

- Lifts 111
 - Electric lifts 114
 - Details of lifts 116
 - Paternosters 121
 - Oil-hydraulic lifts 121
 - Builder's work 123
 - Escalators 124
 - Travelators (moving pavements) 126
-

Chapter 12 Service ducts 126

- Planning 126
 - Fire risk 131
 - The common trench 131
-

Chapter 13 Daylighting, permanent supplementary artificial lighting 132

- Daylighting 132
 - Daylight factor 132
 - Integration of daylight with electric light (PSALI) 140
-

Chapter 14 Artificial lighting 141

- Principles 141
 - Design of lighting 141
 - Lamps and light fittings 148
-
