Barritt, C. M. H.  
Advanced building construction: - 2nd ed.  
Vol. 1  
1. Building  
I. Title  
690 TH145

ISBN 0-582-01972-9

Set in 10/11 Linotron Times  
Printed in Malaysia  
by Chee Leong Press Sdn. Bhd.,  
Ipoh, Perak Darul Ridzuan

# Contents

*Preface to the First Edition* ix  
*Preface to the Second Edition* x

## Part I General

### Chapter 1 Information retrieval 2

- 1.1 Classification and coding 2
- 1.2 Search patterns and sortation 4
- 1.3 The CI/SfB system 5
- 1.4 CI/SfB Tables and Codes 5
- 1.5 Combined codes 11
- 1.6 CI/SfB Classification box 11
- 1.7 Use of CI/SfB 12

### Chapter 2 Building standards and control 13

- 2.1 The development of the Building Regulation 13
- 2.2 The powers of a local authority 15
- 2.3 The Building Regulations 1985 and Supporting Documents 16
- 2.4 British Standard Specifications 17
- 2.5 British Standard Codes of Practice 18

### Chapter 3 Site control of materials and workmanship 20

- 3.1 The need for inspection 20
- 3.2 Minimisation of waste 21
- 3.3 Testing and storing concreting materials 21
- 3.4 Inspecting and storing bricks 27
- 3.5 Inspecting and storing blocks 28
- 3.6 Inspecting and storing timber 28
- 3.7 Inspecting and storing joinery 30
- 3.8 Inspecting and storing boards 30
- 3.9 Inspecting and storing plastering materials 31
- 3.10 Inspecting and storing metalwork 32

- 3.11 Inspecting and storing sanitaryware 32
- 3.12 Inspecting and storing plumbing goods 33
- 3.13 Inspecting and storing electrical goods and ironmongery 33
- 3.14 Quality control of workmanship 33

## Part II Substructure

### Chapter 4 Soil testing and underpinning 36

- 4.1 Soil investigation 36
- 4.2 Soil characteristics 36
- 4.3 On-site tests 37
- 4.4 Laboratory tests 41
- 4.5 Identification and classification tests 42
- 4.6 Tests of engineering properties 43
- 4.7 Underpinning 45

### Chapter 5 Temporary support 51

- 5.1 Work requiring temporary support 51
- 5.2 Points of support of restraint 52
- 5.3 Dead shores 52
- 5.4 Raking shores 54
- 5.5 Flying shores 54
- 5.6 Window bracing 56

### Chapter 6 Choosing a foundation 57

- 6.1 General factors 57
- 6.2 Settlement 61
- 6.3 Types of continuous support 61
- 6.4 Types of isolated support 66
- 6.5 Foundations in restricted conditions 66

### Chapter 7 Pile foundations 69

- 7.1 Principles of pile foundations 69
- 7.2 Types of pile 71
- 7.3 Under-reamed bored piles 76
- 7.4 Testing piles 78

### Chapter 8 High retaining walls 79

- 8.1 Function 79
- 8.2 Forces in retained material 79
- 8.3 Failure of retaining walls 81
- 8.4 Types of retaining wall 82

- 8.5 Reinforced concrete walls 84
- 8.6 Steel retaining walls 87
- 8.7 Other methods of retaining soil 87

## Part III Superstructure

### Chapter 9 Complex scaffolding 92

- 9.1 The need for complex scaffolding 92
- 9.2 Bird-cage scaffold 93
- 9.3 Mobile tower scaffold 93
- 9.4 Slung scaffold 94
- 9.5 Cantilevered scaffold 95
- 9.6 Suspended scaffold 95
- 9.7 Patent scaffold systems 98

### Chapter 10 Laminated timber 101

- 10.1 Laminated construction 101
- 10.2 Materials 102
- 10.3 Laminated beams 103
- 10.4 Curved laminated members 104
- 10.5 Bow-string truss 106
- 10.6 Portal frames 107
- 10.7 Curved joinery 109

### Chapter 11 Pre-cast concrete frames 110

- 11.1 Choice of pre-cast concrete 110
- 11.2 Single-storey framed structure 111
- 11.3 Multi-storey framed structures 114
- 11.4 Joining pre-cast members 118

### Chapter 12 Infill panels 119

- 12.1 Infill panels and cladding 119
- 12.2 Functional requirements 119
- 12.3 Timber infill panels 121
- 12.4 Metal-framed panels 123
- 12.5 Cast and moulded panels 124
- 12.6 Maintenance 125

### Chapter 13 Composite structures 126

- 13.1 Definition 126
- 13.2 Examples 126
- 13.3 Compatibility 127

13.4	Timber and metal composites	127
13.5	Concrete and steel composites	128
13.6	Reinforced brickwork	130
13.7	Other composites	132

---

### **Chapter 14 Calculated brickwork** **134**

14.1	Design objective	134
14.2	Strength of brickwork	134
14.3	Loading of walls	136
14.4	Terms and definitions	139
14.5	Calculating brickwork	142

---

### **Chapter 15 Long span roof frames** **144**

15.1	Roof systems	144
15.2	Trussed roofs	144
15.3	Lattice girders	146
15.4	Monitor roofs	146
15.5	Flat grid roofs	149
15.6	Space frames	150
15.7	Selection of roof system	152

---

### **Chapter 16 Concrete finishes** **154**

16.1	Reasons for surface finishes	154
16.2	Types of finish	154
16.3	Colour	155
16.4	Formed textures	156
16.5	Worked textures	156
16.6	Profiled surfaces	157
16.7	Exposed aggregate	157

---

## **Part IV Internal construction**

---

### **Chapter 17 Suspended floors** **162**

17.1	Pre-formed floors generally	162
17.2	Pre-cast concrete floors	163
17.3	Pre-cast concrete floor panels	163
17.4	Pre-cast beam floors	165
17.5	Pre-cast rib and pot floors	166
17.6	Steel floors	167
17.7	Open steel floors	167
17.8	Steel panel floors	167
17.9	Composite floors	168

---

### **Chapter 18 Prefabricated stairs** **172**

18.1	Advantages	172
18.2	Concrete stairs	172
18.3	Straight flight concrete stairs	173
18.4	Cranked concrete slab stairs	173
18.5	Concrete spine beam stairs	174
18.6	Concrete stair units	176
18.7	Helical concrete stairs	178
18.8	Metal stairs	178
18.9	Straight flight metal stairs	180
18.10	Metal helical stairs	181
18.11	Balustrading	181

---

### **Chapter 19 Industrial doors and shutters** **183**

19.1	Door types	183
19.2	Sliding doors	184
19.3	Folding doors	187
19.4	Draught exclusion	187
19.5	Roller shutters and slideover doors	188
19.6	Fire-resisting doors	191
19.7	Door operation	191

---

### **Chapter 20 Internal joinery and adhesives** **193**

20.1	Production management	193
20.2	Woodworking machinery	195
20.3	Timbers for building	202
20.4	Adhesives	203

---

## **Part V External works**

---

### **Chapter 21 Rigid pavements** **210**

21.1	The functions of a road structure	210
21.2	Terminology	210
21.3	Flexible and rigid pavements	211
21.4	Design of concrete pavement bays	212
21.5	Joints in rigid pavements	213
21.6	Road drainage	215

---

## **Part VI Demolitions**

---

### **Chapter 22 The Demolition of Buildings** **218**

22.1	Types of demolition	218
------	---------------------	-----

- 22.2 Preliminary activity 219  
 22.3 Safety precautions 221  
 22.4 Demolition techniques 223  
 22.5 Demolition methods applied to buildings 225

*Bibliography* 229
