PREFACE	iii
ACKNOWLEDGMENTS	vii
CHAPTER 1 - INTRODUCTION	1
Purpose	1
Benefits of Electrochemical Testing	1
The Language of Electrochemical Testing	2
Thermodynamics	5
Kinetics	5
CHAPTER 2 - TEST EQUIPMENT	9
Meters/Electronic Equipment	9
Voltage/Potential Meters	9
Current Measurements	11
Potentiostat	12
Galvanostat	15
Function Generator	16
Computer Data Acquisition	16
Reference Electrodes	16
Counter Electrodes	20
Electrochemical Test Cells	23
CHAPTER 3 - EXPERIMENTAL PREPARATION	29
Specimen Preparation	29
Surface Finish	29
Degreasing	30
Mounting	30
Solution Preparation	32
Solution Concentrations	32
Mixing of Solutions	33
Aeration-Deaeration	33
General Wiring and Connections	34
CHAPTER 4 - ELECTROCHEMICAL TEST PROCEDURES	37
Potential Measurement	38
Current Measurement	40
Polarization Techniques Using a Potentiostat	42
Potentiostatic Polarization	42
Potentiodynamic Polarization	47
Galvanostatic Polarization	51

CHAPTER 5 - APPLICATIONS OF ELECTROCHEMICAL METHODS	55
Applications of Potential Measurements	55
Potential-pH Diagrams	55
Oxidizing Power	57
Corrosion Rate	57
Determination of a Galvanic Series	58
Determination of the Level of Cathodic Protection	60
Applications of Current Measurements	61
Current Measurements at a Constant Potential	61
Galvanic Currents	61
Measurement of Current for Cathodic Protection Requirements	64
Polarization Techniques	64
Tafel Slopes	64
Corrosion Rate from Polarization Curves	64
Linear Polarization Resistance/Polarization Resistance	66
Pitting and Crevice Corrosion Susceptibility	72
Degree of Sensitization in Stainless Steels	75
Behavior of Galvanic Couples	77
Effect of Inhibitor	78
Critical Potential for Stress-Corrosion Cracking	80
Reduction Kinetics	80
CHAPTER 6 - TROUBLESHOOTING	83
Gas Bubbles	83
Crevice Corrosion on Specimens	84
High Resistivity Electrolytes	85
Meter Impedance Too Low	86
IR-Drop	87
AC Noise	88
Air Leakage into the Cell	91
Reference Electrodes	92
Ground Loops	92
Loose Electrical Connections	93
REFERENCES	93
APPENDIX A - GLOSSARY OF TERMS	95
APPENDIX B - EXAMPLES	99
APPENDIX A - PROCEDURES	105
