

Groundwater Updates

K. Sato • Y. Iwasa (Eds.)

Springer

Contents

Preface	V
Local Organizing Committee	VII
Reviewing and Editing	IX
Invited and Special Lectures	
Invited Lecture: Soil and groundwater contamination and remediation technology in Europe H. KOBUS	3
Special Lecture: Current trend in groundwater hydraulics F. STAUFFER	9
A new control system of groundwater resource K. SATO	13
Optimization of Groundwater Resources in Basins	
Groundwater sources and the urban development-a possible coexistence R. GORAN	19
Modeling density-driven groundwater flow in vertical cross-sections E. HOLZBECHER	25
Macroscopic monitoring of deep underground fluid flow by repeat gravity measurements J. NISHIJIMA, S. EHARA, Y. FUJIMITSU, T. MOTUYAMA, N. SHIMOSAKO, Y. NAKANO, K. YONESHIGE	31
Investigation and analysis on changes of discharge and saline concentration of groundwater in an alluvial plain M. OJIMA	37
Land-use intensity as a key factor towards unsustainability of groundwater resources: the case of Israel's Coastal Aquifer A.J. MELLOUL, M.L. COLLIN	43
The water resources system and water utilization in the arid northwest of China WANG B., QIU H	49

GIS application for monitoring groundwater arsenic contamination in Bangladesh	
R. KAMAL, M. KARIM, K.C. YAN	55
Multivariate classification method in groundwater research	
A.I. GAVRISHIN, L.I. BONDAREVA, A. CORADINI, M. FULCHIGNONI	61
Challenges, monitoring and development of groundwater in North India	
R.B. SINGH	67
Qanat as an Iranian ancient method for using groundwater	
M.J. POURAGHNAIEI, M. MAHDAVI, S. KHALIGHI	73
Land subsidence prediction and its visualization using geographical information system (GIS)	
S. MURAKAMI, K. YASUHARA, F. MURATA	79
Artificial recharge for sustainable groundwater development in Jinhe water source field of Zaozhuang City, Shandong province, CHINA	
WEN Z., SHU L., LIU X., WU X.	85
The use of long-term tritium concentration records to estimate recharge to confined aquifers in the metropolitan Tokyo	
M. IMAIZUMI, H. HAMADA, S. NIHIRA, S. KAWASHIMA, M. KAWAI	91
Modeling of a karst drainage responses with reservoirs in the Ixina karstic aquifer (Basque Country, Spain)	
J. GÁRFIAS, H. LLANOS, I. HERRERA	97

Groundwater Pollution and Remediation Technologies

Correlation of optimal salinity as function of water/oil ratio in brine/surfactant/alcohol/oil system	
TRUONG H.T., E. KATAYAMA, M. BETTAHAR, U. MATSUBAYASHI	105
Installation of a permeable groundwater treatment wall and its remedial effects	
M. NAKASHIMA, D. SAKAMOTO, S. IMAMURA, M. NEGISHI	111
Groundwater quality evaluation with special reference to fluorosis and nitrate pollution - A case study	
A. ABBI	117
A designing method for in-situ bioremediation of groundwater with evaluation of transport characteristics in aquifers	
M. NAKAMURA, J. KAWABATA, T. KAWAI	123
Groundwater contamination from agro-chemicals in irrigated environment: Field trials	
J.K. SIAL, S. MAHMOOD	129
In-situ electrokinetic remediation of soil and water in aquifer contaminated by heavy metal	
S. SHIBA, Y. HIRATA, T. SENO	135

Use of global optimisation technique in groundwater pumping strategy for plume removal S. MASKEY, A. JONOSKI, D. P. SOLOMATINE	141
Numerical simulation of nitrate transport with unsaturated flow condition in volcanic soils N. YAMASHITA, S. SUGIO	147
The effect of a heterogeneous hydraulic conductivity field on the spread of a contaminant plume in a porous aquifer: A case study in Portugal L. RIBEIRO	153
Significance of pore-scale dispersion and sorption kinetics for solute flux in heterogeneous aquifers A. FIORI, S. BERGLUND	159
Longitudinal dispersivity of partially saturated sand packed into air suck column T. SATO, H. TANAHASHI, M. SHIBATA	165
Geochemical behavior of trace vanadium in the spring, underground and lake waters at the foot of Mt. Fuji, central Japan S. KOSHIMIZU, K. TOMURA	171
A case study using a soil gas extraction method for the remediation of a site contaminated by chloro-organic compounds T. OHORA, K. OKUMURA	177
Estimation of air-water interfacial area in unsaturated porous medium: A new experimental approach A.H.M. FAISAL ANWAR, M. BETTAHAR, U. MATSUBAYASHI	183
The lysimeter experiments and numerical simulations on behavior of DNAPL in the unsaturated zone M. YOSHIMURA, C. TANG, Y. SAKURA	189
Underground Development and Groundwater Technologies	
Experimental study on gas seepage in rock K. SATO, M. EBARA	197
An investigation on uplift forces acting on water structures' floors M.A. ASHOUR, F.K. ABD EL-SAYED	203
The long-term piping behind the concrete lining of a tailrace canal with high diurnal drawdown; Beresti Canal case G. ARMENCEA, E. NEAGOE, I. MORARU	209
Interaction Between Surface and Subsurface Water	
Determination of groundwater seepage into a river by Radon-222 concentration in water H. HAMADA, S. NIHIRA, M. ASANO	217

Interaction between fresh groundwater and salt sea water in heterogeneous freshwater coastal aquifer A.P. FROLOV, I.O. YOSHMANOV	223
Hydraulic analysis on steam-aquifer interaction by storage function models M. HARADA, M.M. HANTUSH, M.A. MARIÑO	229
Investigation of saline water intrusion into aquifer by using resistivity method M. ISHII, T. OKA, K. OTOSHI	235
Groundwater flow systems in Yoro River Basin estimated from stable isotope, subsurface temperatures and MODFLOW D.J. ROSTAND, M. KONNO, A. MIYAKOSHI, Y. SAKURA	241
Climate change impacts in regional-scale aquifers: principles and field application H.A. LOAICIGA	247
Simulation of conservation of a spring in groundwater recharge by rainwater Y. ANDO, K. FUJIMURA, T. KOBAYASHI	253
Numerical simulation of groundwater flow in multi-layered aquifers with a distributed hydrological model Y. JIA, G. NI, Y. KAWAHARA, T. SUETSUGI	259
Study on interaction between surface and subsurface flows using conjunctive flow model M. MORITA, B.C. YEN	265
Diurnal fluctuations of soil temperature, vapor pressure and evaporation in bare soils Y. TAKANO, T. FUKUHARA, K. SATO	271
Modeling groundwater flow in an unconfined aquifer in an alluvial fan A.M. ELHASSAN, A. GOTO, M. MIZUTANI	277
Extreme capacity of unconfined aquifers with accretion S. BELOV, N. FUJII, A. KACIMOV	283
Biological treatment of ground waters H. SEPPÄNEN	289
Numerical simulation of water-gas flow and transport processes in coastal aquifers R. HINKELMANN, H. SHETA, R. HELMIG, E.J. STAUTER, M. SCHLÜTER	295
Groundwater recharge study and simulation – Kamphaeng Phet Case Study – S. KOONTANAKULVONG, C. SUTHIDHUMMAJIT	301
A simulation study on the heat and vapor transfer at the ground surface T.C. VU	307
An engineering approach towards appropriate hydrological water cycle in urban areas: First report M. IMBE, Y. NAKANO, N. NAKASHIMA, S. NAKAMURA, D. OGAWADA	313

Planning for renewal of the hydrological cycle in hillside developments J. MATSUSHITA, T. NAGAI, M. ADACHI	319
Reliability of Numerical Methods and Scaling in Geohydraulics	
Integrating GIS data with 3D finite element groundwater models N.L. JONES, A.M. LEMON, C.A. TALBOT	327
Numerical simulation and homogenization of two-phase flow in heterogeneous porous media B. ATAIE-ASHTIANI, S.M. HASSANIZADEH, M.OOSTROM, M.D. WHITE	333
Automatic grid adaptation for multidimensional coupled processes in subsurface hydrosystems R. KAISER, O. KOLDITZ, W. ZIELKE	339
Efficient computational algorithm in groundwater management T. FUTAGAMI, H. YAMAJI, Y. ISHII, K. OKIYAMA, K. KAIBARA	345
Groundwater modeling by layer based three-dimensional concept T.L. TSAI, L.H. HUANG, J.C. YANG	351
Numerical modeling of volatile and slightly soluble contaminant flow in unsaturated and saturated zone K. ITOH, H. TOSAKA, O. MATSUBARA, Y. HIROTA	357
Boundary conditions effect on the accuracy of groundwater head evaluation YU. A. MEDOVAR, I.O. YOSHUMANOV	363
Hysteretic unsaturated flow in porous media caused by periodic movement of the phreatic surface: model and experiment F. STAUFFER	369
Confidence intervals of hydraulic properties estimated by highly efficient numerical inversion with pressure change rate matching K. MASUMOTO, M. VALLE	375
Characterization of hydraulic properties of fractured rock mass with numerical model A. KOBAYASHI, K. HOSONO, T. FUJITA	381
Evaluation of the heterogeneous hydrogeological structure K. NAKAGAWA, K. JINNO	387
Evaluation of in-situ air permeability test for designing of soil vapor extraction K. YASUMOTO, J. KAWABATA	393
Parameter identification in discontinuous rock mass aquifers using thermal fluid logging method M. SCHRECK, A. OMATA, M. NISHIGAKI	399
Estimation of hydrogeological parameters in groundwater modeling by genetic algorithm K.L. PRASAD, A.K. RASTOGI	405

Mathematical modeling of groundwater flow and radionuclide transport in heterogeneous aquifer M. MUNAKATA, H. KIMURA	411
Investigation of the accuracy of numerical modelling of seepage through variably saturated soils M. MAVROULIDOU, R.I. WOODS	417
Study on breakwater stability under waves induced seepage flow MAO B., DUAN X., MAO P.	423

Short Papers

Optimization of Groundwater Resources in Basins

Investigation of groundwater flow by using fiber-optic temperature sensor K. HIROKI, M. NASU, K. NUKINA, S. UNNO, T. SATO, O. WATANABE, K. FUKASAWA, H. ISHIBASHI, S. HORIUCHI	431
Subsidence in the Noubi plains F. HARA, S. SASAKI, J. HIJIKATA, O. MATSUO, Y. ITOH	433
Analysis on influence factors of sustainable groundwater development in Jining City, Shandong Province, CHINA SHU L., SUN Q., PENG X., WEN Z.	435

Groundwater Pollution and Remediation Technologies

Construction of an integral monitoring system for contaminated groundwater resources in the municipal area of Glauchau using a ground water model C. LEIBENATH, P. ZINKE, M. PALM	439
Application of a simple method for the convection direction estimation to the groundwater polluted by Volatile Chlorinated Hydrocarbons Y. SAKAMOTO, Y. YAMANAKA, F. MINAI, K. NISHIDA	441
Effect of injection mode on the spatial moments of a non-reactive solute plume S. BERGLUND, G. DEMMY	443
Flow path and material cycle for groundwater of floodplain in the Nagata district of the Tama River K. TSUSHIMA, H. OHNO, S. UEDA, N. OGURA	445
Pollution problems of the groundwater regimes in Calicut City, Kerala, due to Cannoly Canal T.K. JALAJA., E. NIRMALA, N. STEPHEN, S.R. NAIR	447
Relations between behavior of gaseous VOCs in unsaturated zone and gas adsorption to soil Y. ISHII, K. MURAOKA, C. LEE	449
Study on remediation of oil contaminated soil K. NISHIDA, T. UENO, T. MIURA, H. KUBO, T. KAWACHI	451

The strategy and development of solid waste disposal in China QIU H., LIU G., ZHENG X.	453
Survey of Soil and groundwater Contamination due to Waste Disposal – A Study of ‘Contaminant Diagnosis Remediation System’ T. FURUICHI, K. ISHII, T. FUKUMOTO, T WADA	455
<i>Interaction Between Surface and Subsurface Water</i>	
Temporal changes of fluid balance for lake Stechlin and its subsurface watershed E. HOLZBECHER, G. GINZEL, G. NÜETZMANN	459
The effect of soil excavation on the water balance of a small lake in northern Finland T. ANTILA, J. HOOLI	461
Estimation of vertical recharge of karst aquifer by surface water in tropical monsoon climate S. SUSANTO	463
Application of multi-layer dewatering and vertical recharge system in dewatering for underground works N. KOHSAKA, N. MIYAKE	465
<i>Reliability of Numerical Methods and Scaling in Geohydraulics</i>	
Parameter estimation methods to determine hydraulic properties of aquifers using genetic algorithms Y. TAKESHITA, K. YASUI, H. UEKUMA, A. NISHIMURA	469
Integration of well hydraulics formulae considering several conditions of pumping test and/or hydraulic boundaries Y. SHINSHI, K. NAKANO, S. MIKAKE, R. TAKEUCHI	471
Arsenic problem in groundwater, a growing threat to public health in Bangladesh: An overall perspective and management modeling approach A. HOSSAIN, M.F. RABBI, A.R. ABID, S.SADEK	473
Special Topics	
1. Modeling of flow and transport processes in the subsurface R. HELMIG, R.E. EWING, S. FINSTERLE, R. HINKELMANN	477
2. Interaction between the groundwater and geomechanics I. KOHNO, F.B.J. BARENDS, A.D. GUPTA, M. NISHIGAKI	481
3. Groundwater flow and subsurface thermal regime Y. SAKURA, M. TANIGUCHI, C. CLAUSER, WANG J.	485
Keyword Index	489
