

WATER

Pollution V

Modelling, Measuring and Prediction

Editors:

P. Anagnostopoulos
and C.A. Brebbia

WIT PRESS

CONTENTS

Keynote Address

- Modelling hydrodynamic, sediment and contaminant transport processes in coastal and estuarine waters 3
R.A. Falconer & B. Lin

Section 1: Wastewater Treatment and Sewage Systems

- Hydraulic characteristics of sewage treatment units 17
A.I. Stamou

- Wastewater treatment using grass filtration 27
F. Ibrahim, A.K. Takyi, B.J.C. Perera & P. Lechte

- Comparative study of UV-activated processes for the degradation of organic pollutants in water 37
I. Mazzarino

- Performance of chitosan as a primary coagulant for the wastewater treatment 47
M.-B. Gidas, O. Garnier & N.K. Gidas

- A study of the recirculation of landfill leachate in a MSW pilot plant 57
J. Iglesias, L. Castrillón, E. Marañón & H. Sastre

- Common problems in wastewater treatment plants function 67
G. Ćosić Flajsig & B. Zmaić

- Overflow rate of high-rate settlers 77
Ž Vuković

- Sewage outfalls in the channel area: the Zadar and Pasman channels (east Adriatic) 85
I. Vilibić, A. Smirčić, N. Leder & Z. Gržetić

- Economical impact of sewage systems rehabilitation in Italy 95
C. Lubello, A. Mazzei & A. Doughty

Nutrient balances, sludge production and sludge stabilisation at different waste water treatment technologies	105
<i>N. Vodopivec, M. Rismal & B. Kompare</i>	

Section 2: Mathematical and Physical Modelling

Two-dimensional modelling of free surface flows: experiences and practical applications	117
---	-----

M. Četina

The use of fuzzy logic for the study of water pollution in the Thermaikos Gulf	129
--	-----

H. Mpimpas, P. Anagnostopoulos & J. Ganoulis

Section 3: Modelling as a Management Tool

Modelling and management hand in hand	141
---------------------------------------	-----

F. Steinman, P. Banovec & B. Kompare

RIOVAL: A management tool for water quality modelling in small streams	151
--	-----

H. Horn

Uncertainty management through stochastic modelling	161
---	-----

M.E. Rossi

Decision Support System: A concept for success in coastal sea quality management?	171
---	-----

S. Knezić & J. Margeta

Section 4: Saltwater Intrusion

Saline water intrusion monitoring and control at Guves Prefecture - Crete	183
---	-----

G-Akis Tselentis, G. Kallergis, I. Bulukakis, G. Delis & P.G. Paraskevopoulos

Saline intrusion with change in tidal range	195
---	-----

M. Ifuku

Section 5: Biological Effects

- Advantage of leachate recirculation on municipal solid waste biodegradation: experimental and field results 207
M.A. Warith

- Distribution and survival of enteric bacteria in the littoral zone of Lake Kinneret 217
T. Bergstein Ben-Dan, A. Hochman, Y. Kamenir, R. Horovitch & B. Shteinman

Section 6: Hydrodynamic and Water Quality Modelling

- Subsurface transport modeling using adaptive finite elements 229
D.W. Pepper, Y.-T. Chen & L. Li

- Modelling water quality in European rivers 239
A. Marshall, W. Bauwens, D.B. Boorman, K. Manni & A. van Griensven

- Construction and calibration of an integrated urban drainage model 249
C. Fronteau, A. van Griensven & W. Bauwens

- Operating diagnostics on a flocculator-settling tank using Fluent CFD software 259
S. Lainé, L. Phan, P. Pellarin & P. Robert

- Lessons learned by modelling impounded river water quality with QUAL2E 269
I. Cvitanić & B. Kompare

Section 7: Chemical and Nuclear Pollution

- Uranium in groundwaters from Botucatu-Pirambóia aquifer, Brazil 281
D.M. Bonotto

- Treatment of stormwater runoff from highways - design failures 293
P. Rodič & D. Ciuha

Section 8: Pollution of Estuaries, Coastal Seas and Open Seas

- Water quality monitoring in Strymonikos Gulf and Gulf of Ierissos, Northern Greece 303
G. Sylaios, D. Ioannidou & E. Koutrakis

The quantification of atmospheric deposition of nutrients, and some regulatory repercussions <i>B.B. Hicks</i>	311
Distribution of chlorobenzenes and hexachlorobutadiene in surficial sediments of Kaohsiung Coast, Taiwan <i>Chon-Lin Lee, Huei-Jing Song, Meng-Der Fang & Wan-Ching Nung</i>	321
Practical application of neural networks to predict DO concentration <i>J.A. García, V. Arroyo, L. Sanchez & J.A. Pino</i>	331
Comparison between experimental and theoretical assessment of phosphorous and nitrogen loadings flowing into a coastal lagoon <i>R. Casula, M. Coni, M. Diliberto & A. Murrau</i>	341
Sanitary quality of beaches by a data mining approach <i>V.M.S. Barbalho & N.F.F. Ebecken</i>	353
 Section 9: Experimental and Laboratory Work	
Experimental validation of a zero-dimensional water quality model for small tidal harbours <i>M.J. Wearing & R.W. Barber</i>	363
Effect of artificial macro roughness in very steep sewers <i>O. Giustolisi, M. Mastrorilli & F. Porcaro</i>	373
 Section 10: Lakes, Rivers and Channels	
Dynamics of settling velocity distribution of suspended particulate matter during sedimentation processes in rivers <i>D. Prochnow, C. Engelhardt & H. Bungartz</i>	385
Investigation of pollutant budgets by long-term numerical simulation: a case study on the Neckar River, Germany <i>U. Kern & B. Westrich</i>	401
Algal development of the Čunovo Reservoir on the River Danube <i>J. Makovinská</i>	411
Accumulation of the persistent organic pollutants in the food chain of the lake Baikal <i>O.V. Poliakova A.T. Lebedev, N.K. Karakhanova, V.A. Shmorgunov, A.V. Funtov & V.S. Petrosyan</i>	419

Co-60 transfer from water to the freshwater planktonic algae 427
Selenastrum capricornutum Prinz
J.A.G. Corisco & M.C.V. Carreiro

Monitoring and control of pollution processes in reservoirs 437
V. Telesca

Section 11: Heavy Metals

A novel approach for modeling heavy metal sorption to 445
heterogeneous media under batch and column settings
C. Ganguly, J. Van Benschoten & A.J. Rabideau

Distribution of Hg, Cu, Zn, Cd and Pb in surface sediments from 455
the coastal region of the central Adriatic
T. Zvonaric & N. Odzak

Section 12: Groundwater and Aquifer Contamination

Electric current and potential variations during electrokinetic 467
removal of heavy metal from aquifer
S. Shiba, Y. Hirata & T. Seno

Two-phase model for transport and biodegradation in a 477
saturated porous media
M. El Hatri & S.A. Kammouri

Pollution of Tehran groundwater 485
A. Taher Shamsi & A. Ardeshtir

Mapping the water quality of the Puelchense subaquifer in 493
Luján (Argentina)
*F. Momo, W. Cuevas, A. Giorgi, M. Banchemo, S. Rivelli, C. Taretto,
A. Gomez Vazquez & C. Feijoo*

Design implications of the distribution of pollutants in collection 503
and storage systems used in small rural water supplies
A.S. Petrie, A.G. Cram

Section 13: Organic Contaminants

The aqueous chlorination of the structural fragments of humic matter 515
*N.A. Moshkarina, I. Dianova, G. Chaidoullina, A.T. Lebedev,
M.M. Kanovich, A.K. Buryak & V.S. Petrosyan*

Permeameter desorption study on contaminated soils by organic compounds	525
<i>J. Park, J. Lee & H. Kwon</i>	

Section 14 Oil Spills

Estimating rates of oil spills in the Egyptian ports and application of the technology of “windows-of-opportunity” in combating	537
<i>M. Bayoumi & G. Ghalwash</i>	

Numerical simulation of hypothetical oil spills at the Casablanca Oil Platform, NW Mediterranean	547
<i>M. Espino, M.A. Maidana, F. Hermosilla, M.A. García, J.M. López de Goicoechea & A.S.-Arcilla</i>	

Section 15 Additional Papers

Experimental study of “periphyton-flow” interactions	559
<i>R.Godillot, B. Caussade, T. Améziane</i>	

Hydroecological modelling of the Garonne River (South-West of France)	567
<i>S.Sauvage, S. Teissier, F.Garabétian, B.Caussade</i>	

Potential use of expert systems and optimisation techniques in water resources planning	577
<i>M.A.Yurdusev, M.L.Froukh and D.G.Jamieson</i>	

Index of Authors	585
