# CONTENTS

|  |    |
|--|----|
| Preface . . . . .  | 3  |
| Part I   |    |
| METHODS USED IN ORGANIC SYNTHESIS                                    |    |
| Chapter 1  |    |
| WORK AND SAFETY RULES  |    |
| 1.1. Safety Rules in the Organic Synthesis Laboratory . . . . .      | 13 |
| 1.2. Precautions and First Aid in Case of Accidents . . . . .        | 14 |
| Work with Poisons and Caustics . . . . .                             | 14 |
| Work with Highly Flammable Substances and Explosives . . . . .       | 16 |
| Rules of Handling Glassware . . . . .                                | 16 |
| First Aid in Case of Burns, Poisonings and Other Accidents . . . . . | 17 |
| Extinguishing Local Fires and Burning Clothes . . . . .              | 18 |
| 1.3. Principal Laboratory Equipment . . . . .                        | 18 |
| 1.4. Assembly . . . . .  | 27 |
| 1.5. Cleaning and Drying Laboratory Equipment . . . . .              | 28 |
| 1.6. Literature, Notebooks and Reports . . . . .                     | 30 |
| Chapter 2  |    |
| PRINCIPAL LABORATORY OPERATIONS                                      |    |
| 2.1. Heating . . . . .   | 33 |
| 2.2. Cooling . . . . .   | 36 |
| 2.3. Measuring and Controlling the Temperature . . . . .             | 36 |
| 2.4. Grinding and Stirring . . . . .                                 | 37 |
| 2.5. Dissolution and Properties of Some Organic Solvents . . . . .   | 40 |
| Ethyl Alcohol . . . . .  | 41 |
| Methyl Alcohol . . . . .   | 44 |
| Ether . . . . .  | 44 |
| Petroleum Ether . . . . .  | 46 |
| Acetone . . . . .  | 46 |
| 2.6. Drying and Principal Drying Agents . . . . .                    | 47 |
| Drying Gases . . . . .   | 47 |
| Drying Organic Liquids . . . . .                                     | 48 |
| Drying Solids . . . . .  | 49 |
| Principal Drying Agents . . . . .                                    | 50 |
| 2.7. Filtration . . . . .  | 51 |
| Filtration at Atmospheric Pressure . . . . .                         | 52 |
| Suction Filtration . . . . .   | 54 |
| Chapter 3  |    |
| METHODS OF PURIFYING ORGANIC SUBSTANCES                              |    |
| 3.1. Crystallization . . . . .                                       | 57 |
| Solvent Selection . . . . .  | 57 |
| Recrystallization Procedure . . . . .                                | 59 |

|   |    |
|---|----|
| Formation of Crystals . . . . .                             | 59 |
| 3.2. Sublimation . . . . .                                  | 61 |
| 3.3. Extraction . . . . .                                   | 62 |
| 3.4. Distillation . . . . .                                 | 66 |
| Simple Distillation at Atmospheric Pressure . . . . .       | 66 |
| Steam Distillation . . . . .                                | 68 |
| Vacuum Distillation (at Reduced Pressure) . . . . .         | 72 |
| Fractional Distillation . . . . .                           | 76 |
| Rectification . . . . .                                     | 79 |
| 3.5. Chromatography . . . . .                               | 80 |
| Adsorption Chromatography (Column Chromatography) . . . . . | 81 |
| Partition Chromatography . . . . .                          | 84 |
| Paper Chromatography . . . . .                              | 85 |
| Ion Exchange Chromatography . . . . .                       | 87 |

## Chapter 4

### DETERMINATION OF THE PRINCIPAL CONSTANTS OF ORGANIC COMPOUNDS

|                                 |    |
|---------------------------------|----|
| 4.1. Melting Point . . . . .    | 88 |
| 4.2. Boiling Point . . . . .    | 91 |
| 4.3. Specific Gravity . . . . . | 92 |
| 4.4. Refractive Index . . . . . | 95 |
| 4.5. Molecular Weight . . . . . | 96 |

## Chapter 5

### WORK WITH COMPRESSED AND LIQUEFIED GASES

|   |     |
|---|-----|
| 5.1. Gas Cylinders and How to Use Them . . . . .                              | 99  |
| 5.2. Dosing Gases . . . . .   | 102 |
| 5.3. Purification of Gases and Their Introduction into an Apparatus . . . . . | 103 |
| 5.4. Safety Rules in Handling Gas Cylinders . . . . .                         | 104 |

## Chapter 6

### QUANTITATIVE ELEMENTAL ANALYSIS OF ORGANIC SUBSTANCES

|  |     |
|--|-----|
| 6.1. Semimicrodetermination of Carbon and Hydrogen . . . . .           | 106 |
| Assembly . . . . .   | 106 |
| Analysis . . . . .   | 110 |
| 6.2. Semimicrodetermination of Nitrogen (According to Dumas) . . . . . | 112 |
| Assembly . . . . .   | 112 |
| Analysis . . . . .   | 114 |
| 6.3. Microdetermination of Carbon and Hydrogen . . . . .               | 116 |
| Assembly . . . . .   | 116 |
| Analysis . . . . .   | 121 |

## Part II

### SYNTHESES OF ORGANIC SUBSTANCES

## Chapter 7

### HALOGENATION REACTIONS

|   |     |
|---|-----|
| 7.1. Replacement of the Hydroxyl Group of Alcohols by a Halogen . . . . . | 123 |
| 7.2. Replacement of the Hydroxyl Group of Acids by a Halogen . . . . .    | 125 |
| 7.3. Halogen Addition by the Multiple Bond . . . . .                      | 126 |
| 7.4. Direct Replacement of Hydrogen by a Halogen . . . . .                | 126 |

|  |     |
|--|-----|
| 7.5. Syntheses . . . . .                               | 127 |
| Ethyl Bromide . . . . .                                | 127 |
| $\alpha$ -Bromonaphthalene and Ethyl Bromide . . . . . | 130 |
| Ethyl Iodide . . . . .                                 | 132 |
| Butyl Bromide . . . . .                                | 134 |
| Acetyl Chloride . . . . .                              | 137 |
| Benzoyl Chloride . . . . .                             | 139 |
| 1,2-Dibromoethane . . . . .                            | 140 |
| Bromobenzene . . . . .                                 | 143 |
| $\alpha$ -Bromonaphthalene . . . . .                   | 146 |
| <p><i>p</i>-Bromoanisole . . . . .</p>                 | 148 |

## Chapter 8

## ALKYLATION REACTIONS

|  |     |
|--|-----|
| 8.1. Alkylation of Aromatic Hydrocarbons by Alcohols in the Presence of Sulphuric Acid . . . . . | 150 |
| 8.2. Preparation of Ethers . . . . .   | 151 |
| 8.3. Syntheses . . . . .   | 152 |
| <i>sec</i> -Butylbenzene . . . . .   | 152 |
| Dibutyl Ether . . . . .  | 154 |
| Isoamyl Ether . . . . .  | 155 |
| Diphenyl Ether . . . . .   | 156 |
| Phenetole . . . . .  | 158 |
| $\beta$ -Naphthyl Ethyl Ether (New Nerolin, Bromelia) . . . . .                                  | 159 |
| Anisole . . . . .  | 160 |

## Chapter 9

## ACYLATION REACTIONS

|   |     |
|---|-----|
| 9.1. Acylation of Alcohols and Amines by Carboxylic Acids . . . . .         | 162 |
| 9.2. Acylation of Alcohols, Phenols and Amines by Acyl Chlorides . . . . .  | 165 |
| 9.3. Acylation of Alcohols, Phenols and Amines by Acyl Anhydrides . . . . . | 166 |
| 9.4. Syntheses . . . . .  | 167 |
| Ethyl Acetate . . . . .   | 167 |
| Isoamyl Acetate . . . . .   | 168 |
| Ethyl Chloroacetate . . . . .   | 171 |
| Diethyl Oxalate (Ethyl Oxalate) . . . . .                                   | 172 |
| Ethyl Benzoate . . . . .  | 174 |
| Benzanilide . . . . .   | 176 |
| Aspirin (Acetylsalicylic Acid) . . . . .                                    | 177 |
| $\beta$ -Naphthyl Acetate . . . . .   | 179 |
| Acetanilide . . . . .   | 180 |

## Chapter 10

## FRIEDEL-CRAFTS REACTIONS

|  |     |
|--|-----|
| 10.1. Alkylation of Aromatic Compounds . . . . . | 182 |
| 10.2. Acylation of Aromatic Compounds . . . . .  | 184 |
| 10.3. Syntheses . . . . .                        | 186 |
| Isopropylbenzene . . . . .                       | 186 |
| Diphenylmethane . . . . .                        | 187 |
| Acetophenone . . . . .                           | 189 |
| Benzophenone . . . . .                           | 191 |

## Chapter 11

## OXIDATION REACTIONS

|   |     |
|---|-----|
| 11.1. Oxidation at the Double Bond . . . . .  | 195 |
| 11.2. Oxidation of Primary and Secondary Alcohols to Aldehydes or Ketones . . . . . | 196 |
| 11.3. Oxidation of Aldehydes and Ketones to Acids . . . . .                         | 196 |
| 11.4. Oxidation of Methyl and Methylene Groups . . . . .                            | 197 |
| 11.5. Preparation of Quinones by Oxidation . . . . .                                | 197 |
| 11.6. Syntheses . . . . .   | 198 |
| Acetaldehyde . . . . .  | 198 |
| Propionaldehyde . . . . .   | 202 |
| Isovaleraldehyde . . . . .  | 204 |
| Benzophenone . . . . .  | 206 |
| Isobutyric Acid . . . . .   | 207 |
| Valeric Acid . . . . .  | 209 |
| Benzoic Acid . . . . .  | 211 |
| Benzoquinone . . . . .  | 213 |
| Anthraquinone . . . . .   | 214 |

## Chapter 12

## NITRATION REACTIONS

|  |     |
|--|-----|
| 12.1. Nitration of Hydrocarbons of the Fatty Series . . . . .    | 217 |
| 12.2. Nitration of Hydrocarbons of the Aromatic Series . . . . . | 218 |
| 12.3. Syntheses . . . . .  | 220 |
| Nitromethane . . . . .   | 220 |
| Nitrobenzene . . . . .   | 221 |
| <i>o</i> -, <i>p</i> -Nitrotoluene . . . . .                     | 224 |
| <i>o</i> -, <i>p</i> -Nitrophenol . . . . .                      | 226 |
| $\alpha$ -Nitronaphthalene . . . . .                             | 229 |

## Chapter 13

## AMINATION REACTIONS

|  |     |
|--|-----|
| 13.1. Preparation of Amines of the Fatty Series . . . . .      | 232 |
| 13.2. Preparation of Amines of the Aromatic Series . . . . .   | 233 |
| 13.3. Syntheses . . . . .                                      | 235 |
| Methylamine . . . . .  | 235 |
| Aniline . . . . .  | 237 |
| <i>o</i> -, <i>p</i> -Toluidine . . . . .                      | 242 |
| $\alpha$ -Naphthylamine . . . . .                              | 244 |
| Preparation of $\alpha$ -Naphthylamine Hydrochloride . . . . . | 245 |

## Chapter 14

## SULPHONATION REACTIONS

|  |     |
|--|-----|
| 14.1. Sulphonation of Aromatic Compounds . . . . .         | 247 |
| 14.2. Syntheses . . . . .                                  | 249 |
| $\beta$ -Naphthalenesulphonic Acid (Sodium Salt) . . . . . | 249 |
| Benzenesulphonic Acid (Sodium Salt) . . . . .              | 253 |
| <i>p</i> -Toluenesulphonic Acid . . . . .                  | 254 |
| Sulphanilic Acid . . . . .                                 | 257 |

## Chapter 15

## DIAZOTIZATION AND AZO COUPLING REACTIONS

|   |     |
|---|-----|
| 15.1. Diazonium Salt Reactions with Loss of Nitrogen . . . . .    | 262 |
| 15.2. Diazonium Salt Reactions Without Loss of Nitrogen . . . . . | 263 |
| 15.3. Syntheses . . . . .   | 265 |
| Phenol . . . . .  | 265 |
| Iodobenzene . . . . .   | 268 |
| Helianthin . . . . .  | 271 |
| $\beta$ -Naphthol Orange . . . . .                                | 273 |

## Chapter 16

## GRIGNARD REACTIONS

|   |     |
|---|-----|
| 16.1. Preparation of Hydrocarbons . . . . .   | 277 |
| Quantitative Determination of Active Hydrogen by the Chugaev-Tse-<br>revitinov Method . . . . . | 277 |
| 16.2. Preparation of Carboxylic Acids . . . . .   | 280 |
| 16.3. Preparation of Alcohols . . . . .   | 280 |
| 16.4. Syntheses . . . . .   | 282 |
| Phenylacetic Acid . . . . .   | 282 |
| Triphenylcarbinol . . . . .   | 285 |
| Diphenylcarbinol (Benzhydrol) . . . . .   | 287 |

## Chapter 17

## CANNIZZARO REACTIONS

|  |     |
|--|-----|
| 17.1. Synthesis of Benzoic Acid and Benzyl Alcohol . . . . . | 290 |
|--|-----|

## Chapter 18

## CLAISEN REACTIONS

|                              |     |
|------------------------------|-----|
| 18.1. Syntheses . . . . .    | 296 |
| Ethyl Acetoacetate . . . . . | 296 |
| Benzoylacetone . . . . .     | 298 |

## Chapter 19

## POLYMERIZATION AND POLYCONDENSATION REACTIONS

|  |     |
|--|-----|
| 19.1. Polymerization . . . . .                                 | 300 |
| 19.2. Polycondensation (Condensation Polymerization) . . . . . | 303 |
| 19.3. Syntheses . . . . .                                      | 306 |
| Paraldehyde . . . . .  | 306 |
| Polystyrene . . . . .  | 307 |
| Polymethyl Methacrylate . . . . .                              | 310 |
| Copolymer of Styrene with Methyl Methacrylate . . . . .        | 312 |
| Methyl Methacrylate (from Polymethyl Methacrylate) . . . . .   | 313 |
| Glyptal Resin . . . . .  | 314 |
| Phenol-Formaldehyde Resin . . . . .                            | 315 |

## Chapter 20

## IDENTIFICATION

|                                       |     |
|---------------------------------------|-----|
| 20.1. Preliminary Tests . . . . .     | 319 |
| 20.2. Qualitative Reactions . . . . . | 322 |

|   |     |
|---|-----|
| 20.3. Preparation of Derivatives . . . . .  | 325 |
| Recommended Literature . . . . .  | 328 |
| Supplements . . . . .   | 329 |
| 1. Drying Agents for Organic Compounds . . . . .  | 329 |
| 2. Steam Pressure at Different Temperatures . . . . .   | 329 |
| 3. Pressure of Liquefied Gases in Cylinders . . . . .   | 330 |
| 4. Colour Code of Compressed Gas Cylinders . . . . .  | 330 |
| 5. Density of Sulphuric Acid Solutions (20 °C) . . . . .  | 330 |
| 6. Density of Hydrochloric Acid Solutions (20 °C) . . . . .   | 332 |
| 7. Density of Nitric Acid Solutions (20 °C) . . . . .   | 332 |
| 8. Density of Sodium Hydroxide Solutions (20 °C) . . . . .  | 334 |
| 9. Density of Potassium Hydroxide Solutions (20 °C) . . . . .   | 335 |
| 10. Physical Properties of Alcohols and Their Derivatives . . . . .                                     | 336 |
| 11. Physical Properties of Phenols and Their Derivatives . . . . .                                      | 336 |
| 12. Physical Properties of Aldehydes and Their Derivatives . . . . .                                    | 337 |
| 13. Physical Properties of Ketones and Their Derivatives . . . . .                                      | 337 |
| 14. Physical Properties of Carboxylic Acid and Their Derivatives . . . . .                              | 337 |
| 15. Physical Properties of Primary and Secondary Amines and Their<br>Derivatives (Acetamides) . . . . . | 338 |
| 16. Physical Properties of Alkyl Halides and Their Derivatives (Ani-<br>lides) . . . . .                | 338 |
| Index . . . . .   | 339 |
