

# 10 Metals Handbook®

Desk Edition

American Society for Metals

# Contents

## Part I. General Information

<b>1 GLOSSARY OF METALLURGICAL TERMS AND ENGINEERING TABLES</b> .....	<b>1•1</b>
Glossary of Terms Related to Metals and	
Metalworking .....	1•1
Engineering Tables .....	1•43
Periodic table of the elements .....	1•43
Physical properties of the elements .....	1•44
Density of metals and alloys .....	1•49
Linear thermal expansion of metals and alloys ...	1•51
Thermal conductivity of metals and alloys .....	1•52
Electrical conductivity and resistivity of metals and alloys .....	1•53
Vapor pressure of the elements .....	1•54
Metric conversion factors .....	1•55
Metric stress-intensity conversions .....	1•55
Metric energy conversions .....	1•56
Metric stress or pressure conversions .....	1•57
Temperature conversions .....	1•58
Approximate equivalent hardness numbers and tensile strengths for Vickers hardness numbers for steel .....	1•60
Approximate equivalent hardness numbers and tensile strengths for Brinell hardness numbers for steel .....	1•61
Approximate equivalent hardness numbers and tensile strengths for Rockwell C and B hardness numbers for steel .....	1•62
Physical Properties of Steels .....	1•63
<b>2 STRUCTURE AND PROPERTIES OF METALS</b> .....	<b>2•1</b>
Crystal Structure .....	2•1
Mechanical, Physical and Chemical Properties of Metals .....	2•16
Phases and Phase Diagrams .....	2•23
<b>3 METALS ENGINEERING</b> .....	<b>3•1</b>
Concepts and Criteria .....	3•1
Selection for Economy in Manufacture .....	3•7
Criteria for Selection .....	3•12
Processing Rankings .....	3•15

## Part II. Properties and Selection

<b>4 CARBON AND ALLOY STEELS</b> .....	<b>4•1</b>
Classifications and Designations of Carbon and Alloy Steels	
Steels .....	4•1
Mechanical Properties of Carbon and Alloy Steels ...	4•20
Steel Sheet, Strip and Plate .....	4•24
Low-Carbon Steel Sheet and Strip .....	4•24
Alloy Steel Sheet and Strip .....	4•26
Precoated Steel Sheet .....	4•26
Steel Sheet for Porcelain Enameling .....	4•28
Carbon and Low-Alloy Steel Plate .....	4•28
Steel Bar, Rod and Wire .....	4•30
Hot Rolled Steel Bar and Shapes .....	4•30
Cold Finished Steel Bar .....	4•31
Steel Wire Rod .....	4•36
Steel Wire .....	4•37
Steel Tubular Products .....	4•39
Closed-Die Steel Forgings .....	4•41
Steel Castings .....	4•46
High-Strength Steels .....	4•50
High-Strength Structural and High-Strength Low-Alloy Steels .....	4•50
Ultrahigh-Strength Steels .....	4•53
Maraging Steels .....	4•57
Hardenability of Carbon and Alloy Steels .....	4•58
Service Characteristics of Carbon and Alloy Steels ..	4•63
Wear Resistance .....	4•63
Elevated-Temperature Properties of Constructional Steels .....	4•70
Fatigue Resistance of Steels .....	4•75
Embrittlement of Steels .....	4•80
Notch Toughness of Steels .....	4•83
Corrosion Characteristics of Carbon and Alloy Steels .....	4•89
Types of Corrosive Environments .....	4•89
Atmospheric Corrosion .....	4•89
Soil Corrosion .....	4•90
Corrosion in Fresh Water .....	4•91
Corrosion in Seawater .....	4•92
Protection of Steel from Corrosion .....	4•93
<b>5 CAST IRONS</b> .....	<b>5•1</b>
Basic Metallurgy of Cast Iron .....	5•1
Gray Iron .....	5•3
Ductile Iron .....	5•7
Malleable Iron .....	5•12
Alloy Cast Irons .....	5•16
Selected References on Cast Irons .....	5•20
<b>6 ALUMINUM</b> .....	<b>6•1</b>
Introduction to Aluminum and Aluminum Alloys ....	
Alloy and Temper Designation Systems for Aluminum .....	6•8
Aluminum Mill and Engineered Wrought Products .....	6•12
Wrought Aluminum Alloys .....	6•20
Aluminum Foundry Products .....	6•48
Commercial Aluminum Casting Alloys .....	6•52
Aluminum Powder Metallurgy Products .....	6•63

## X Contents

Corrosion Resistance of Aluminum and Aluminum Alloys .....	6•64	15 CORROSION-RESISTANT MATERIALS .....	15•1
<b>7 COPPER</b> .....	7•1	Stainless Steels .....	15•1
Copper and Copper Alloys .....	7•1	Wrought Stainless Steels .....	15•1
Copper Tubular Products .....	7•20	Fabrication of Wrought Stainless Steels .....	15•7
Copper Wire and Cable .....	7•22	Stainless Steels in Corrosion Service .....	15•11
Copper Alloy Castings .....	7•28	Corrosion-Resistant Steel Castings .....	15•20
Stress Relaxation in Copper and Copper Alloys .....	7•33	Nickel and Nickel Alloys .....	15•22
Corrosion Characteristics of Copper and Copper Alloys .....	7•35	Corrosion Resistance of Nickels and Nickel Alloys .....	15•23
<b>8 MAGNESIUM</b> .....	8•1	Corrosion-Resistant Nickel Alloy Castings .....	15•26
Selection and Application .....	8•1	Materials for Corrosion-Resistant Fasteners .....	15•29
Corrosion Resistance .....	8•12	<b>16 HEAT-RESISTANT MATERIALS</b> .....	16•1
<b>9 TITANIUM</b> .....	9•1	Iron-Base Heat-Resistant Alloys .....	16•1
Introduction and Overview .....	9•1	Superalloys .....	16•5
Processing .....	9•4	Heat-Resistant Castings .....	16•18
Corrosion Resistance .....	9•9	Refractory Metals and Alloys .....	16•23
Properties, Compositions and Applications of Selected Alloys .....	9•10	Machinable Tungsten Alloys .....	16•26
<b>10 TIN</b> .....	10•1	<b>17 WEAR-RESISTANT MATERIALS</b> .....	17•1
Tin in Coatings .....	10•1	Hard Facing Materials .....	17•1
Unalloyed Tin .....	10•1	Austenitic Manganese Steel .....	17•2
Tin in Alloys .....	10•2	Nonferrous Alloys for Wear Applications .....	17•8
Tin in Chemicals .....	10•4	<b>18 TOOL MATERIALS</b> .....	18•1
Selected References .....	10•4	Introduction and Overview .....	18•1
<b>11 ZINC</b> .....	11•1	Tool Steels .....	18•1
Corrosion Protection .....	11•1	Superhard Tool Materials .....	18•10
Casting Alloys .....	11•3	Distortion in Tool Steels .....	18•14
Wrought Alloys .....	11•5	Tool Materials for Special Applications .....	18•16
Zinc-Containing Alloys .....	11•5	Cutting Tools .....	18•16
Zinc Dust and Powder .....	11•5	Shearing and Slitting Tools .....	18•17
Zinc Chemicals .....	11•6	Blanking and Piercing Dies .....	18•18
Selected References .....	11•6	Press Forming Dies .....	18•19
<b>12 LEAD</b> .....	12•1	Deep Drawing Dies .....	18•20
Forms of Lead .....	12•1	Metalworking Rolls .....	18•21
Lead Alloys .....	12•1	Coining Dies .....	18•24
Mechanical Properties .....	12•2	Cold Heading Tools .....	18•25
Tin-Lead Solder Alloys .....	12•2	Cold Extrusion Tools .....	18•25
Properties of Unalloyed Lead .....	12•4	Tools for Drawing Wire, Bar and Tubing .....	18•27
Corrosion Resistance .....	12•5	Closed-Die Hot Forging Tools .....	18•28
<b>13 PRECIOUS METALS</b> .....	13•1	Hot Upset Forging Tools .....	18•29
Industrial Applications .....	13•3	Hot Extrusion Tooling .....	18•31
Metal Finishing .....	13•3	Die-Casting Dies .....	18•31
Soldering Alloys .....	13•4	Powder-Compacting Tools .....	18•32
Dental Applications .....	13•4	Molds for Plastics and Rubbers .....	18•33
Pharmacology .....	13•5	Thread-Rolling Dies .....	18•35
Metallography .....	13•6	Gages .....	18•35
Selected References on Precious Metals .....	13•6	Selected References on Tool Materials .....	18•36
<b>14 PURE METALS</b> .....	14•1	<b>19 POWDER METALLURGY MATERIALS</b> .....	19•1
Preparation and Characterization of Pure Metals .....	14•1	Ferrous Materials, Medium to High Density .....	19•1
Selected Properties of Pure Metals .....	14•4	Stainless Steels, Medium Density .....	19•2
Properties of the Actinide Metals .....	14•14	Nonferrous Materials, Low to Medium Density .....	19•3
		P/M Forged Low-Alloy Steels .....	19•3
		Stainless Steels, Fully Dense .....	19•5
		Injection Molded Materials, High Density .....	19•5
		Tool Steels, Fully Dense .....	19•5
		Aluminum Alloys, Medium Density .....	19•5
		Nickel- and Cobalt-Base Alloys .....	19•6

Superalloys ..... 19•6  
 Titanium and Titanium-Base Alloys ..... 19•6  
 References on Powder Metallurgy Materials ..... 19•6

**20 MATERIALS FOR SPECIAL APPLICATIONS ..... 20•1**

Magnetically Soft Materials ..... 20•1  
 Materials for Permanent Magnets ..... 20•5  
 Electrical Resistance Alloys ..... 20•11  
 Electrical Contact Materials ..... 20•16  
 Thermocouples for Industrial Applications ..... 20•21  
 Structural Alloys at Subzero Temperatures ..... 20•24  
 Industrial Uses of Depleted Uranium ..... 20•35  
 Zirconium and Zirconium Alloys ..... 20•35  
 Low-Expansion Alloys ..... 20•37  
 Fusible Alloys ..... 20•39  
 Materials for Sliding Bearings ..... 20•40

**Part III. Processing**

**21 EXTRACTIVE METALLURGY ..... 21•1**

Introduction and Overview ..... 21•1  
 Mineral Processing ..... 21•2  
 Pyrometallurgical Reduction and Refining of Metals ..... 21•6  
 Hydrometallurgical Reduction and Refining of Metals ..... 21•13  
 Electrolytic and Electrothermal Reduction and Refining ..... 21•20

**22 IRON AND STEELMAKING ..... 22•1**

Basic Technology ..... 22•1  
 Direct-Reduction Processes ..... 22•1  
 Production of Pig Iron and Steel ..... 22•2  
 Iron Blast Furnaces ..... 22•2  
 Steelmaking Furnaces and Processes ..... 22•5  
 Secondary Refining Processes ..... 22•7  
 Ladle Metallurgy ..... 22•7  
 Refining and Remelting Processes ..... 22•7  
 Casting and Rolling ..... 22•9  
 Casting of Steel ..... 22•9  
 Ingot Breakdown ..... 22•10  
 Hot Rolling ..... 22•10

**23 CASTING ..... 23•1**

Molding and Casting Processes ..... 23•1  
 Patterns for Sand Molding ..... 23•1  
 Sand Molding ..... 23•3  
 Shell Molding ..... 23•6  
 Phenolic Urethane Resins for Core and Mold Making ..... 23•8  
 Sand Cores and Coremaking ..... 23•12  
 Plaster Mold Casting ..... 23•14  
 Composite Mold Casting ..... 23•18  
 Investment Casting ..... 23•20  
 Ceramic Mold Casting ..... 23•26  
 Permanent Mold Casting ..... 23•28  
 Die Casting ..... 23•32  
 Melting and Casting of Ferrous Metals ..... 23•41  
 Melting of Gray Iron ..... 23•41  
 Production of Gray Iron Castings ..... 23•46  
 Production of Compacted Graphite Iron Castings ..... 23•49

Production of Ductile Iron Castings ..... 23•49  
 Production of Malleable Iron Castings ..... 23•50  
 Production of Steel Castings ..... 23•52  
**Melting and Casting of Nonferrous Metals ..... 23•54**  
 Foundry Melting of Aluminum Alloys ..... 23•54  
 Production of Aluminum Alloy Castings ..... 23•55  
 Foundry Melting of Copper Alloys ..... 23•58  
 Production of Copper Alloy Castings ..... 23•60  
 Production of Magnesium Alloy Castings ..... 23•62  
**Selected References on Casting ..... 23•64**

**24 FORGING ..... 24•1**

Hammers and Presses for Forging ..... 24•1  
 Dies and Die Materials for Hammer and Press Forging ..... 24•6  
 Closed-Die Forging in Hammers and Presses ..... 24•12  
 Open-Die Forging ..... 24•20  
 Hot Upset Forging ..... 24•22  
 Forging of Stainless Steels, Heat-Resisting Alloys and Nonferrous Alloys ..... 24•25  
 Forging of Stainless Steels ..... 24•25  
 Forging of Heat-Resisting Alloys ..... 24•27  
 Forging of Aluminum Alloys ..... 24•29  
 Forging of Copper and Copper Alloys ..... 24•31  
 Forging of Magnesium Alloys ..... 24•33  
 Forging of Titanium Alloys ..... 24•34

**25 POWDER METALLURGY ..... 25•1**

Ferrous Powder Metallurgy ..... 25•1  
 Pressed-and-Sintered Parts ..... 25•1  
 Fully Dense Parts ..... 25•3  
 Stainless Steel Powder Metallurgy ..... 25•6  
 Copper and Copper Alloy Powder Metallurgy ..... 25•8  
 Aluminum Alloy Powder Metallurgy ..... 25•14  
**High Speed Tool Steel and Cemented Carbide Powder Metallurgy ..... 25•16**  
 High Speed Tool Steels ..... 25•16  
 Cemented Carbides ..... 25•19  
 Superalloy Powder Metallurgy ..... 25•20  
 Rapidly Solidified Powders ..... 25•22

**26 FORMING ..... 26•1**

Forming of Steel Sheet, Strip and Plate ..... 26•1  
 Presses and Auxiliary Equipment for Forming of Sheet Metal ..... 26•1  
 Selection of Presses for Forming of Sheet Metal ..... 26•3  
 Selection and Use of Lubricants in Forming of Sheet Metal ..... 26•4  
 Blanking of Low-Carbon Steel ..... 26•4  
 Piercing of Low-Carbon Steel ..... 26•6  
 Fine-Edge Blanking and Piercing ..... 26•6  
 Blanking and Piercing of Magnetically Soft Materials (Electrical Sheet) ..... 26•7  
 Coining ..... 26•7  
 Press Bending of Low-Carbon Steel ..... 26•8  
 Press-Brake Forming ..... 26•9  
 Press Forming of Low-Carbon Steel ..... 26•11  
 Press Forming of High-Carbon Steel ..... 26•12  
 Press Forming of Coated Steel ..... 26•13  
 Forming of Steel Strip in Multiple-Slide Machines ..... 26•13  
 Deep Drawing ..... 26•15  
 Spinning ..... 26•17  
 Rubber-Pad Forming ..... 26•18

<b>Heat Treating of Nonferrous Alloys and Powder</b>	
<b>Metallurgy Parts</b> .....	28•78
Heat Treating of Aluminum Alloys .....	28•78
Heat Treating of Copper Alloys .....	28•83
Heat Treating of Lead and Lead Alloys .....	28•86
Heat Treating of Magnesium Alloys .....	28•87
Heat Treating of Nickel and Nickel Alloys .....	28•87
Annealing of Precious Metals .....	28•89
Heat Treating of Titanium and Titanium Alloys .....	28•89
Heat Treating of Tin-Rich Alloys .....	28•90
Heat Treating of Special-Purpose Alloys .....	28•91
Sintering .....	28•92
Heat Treating of Ferrous Powder Metallurgy Parts .....	28•92
<b>29 SURFACE TECHNOLOGY</b> .....	<b>29•1</b>
<b>Metal Cleaning</b> .....	<b>29•1</b>
Selection of Cleaning Process .....	29•1
Alkaline Cleaning .....	29•2
Electrolytic Cleaning .....	29•4
Emulsion Cleaning .....	29•5
Solvent Cleaning .....	29•5
Acid Cleaning of Iron and Steel .....	29•6
Pickling of Iron and Steel .....	29•7
Abrasive Blast Cleaning .....	29•8
Salt Bath Descaling .....	29•8
<b>Mechanical Finishing</b> .....	<b>29•10</b>
Polishing, Buffing and Brushing .....	29•11
Abrasive and Nonabrasive Blasting .....	29•12
Mass Finishing .....	29•12
<b>Plating and Electropolishing</b> .....	<b>29•14</b>
Copper Plating .....	29•14
Hard Chromium Plating .....	29•14
Decorative Chromium Plating .....	29•16
Nickel Plating .....	29•16
Electroless Nickel Plating .....	29•18
Zinc Plating .....	29•19
Cadmium Plating .....	29•20
Tin Plating .....	29•21
Lead Plating .....	29•21
Tin-Lead Plating .....	29•22
Silver Plating .....	29•22
Gold Plating .....	29•23
Brass Plating .....	29•23
Bronze Plating .....	29•23
Rhodium Plating .....	29•24
Selective Plating .....	29•24
Mechanical Coating .....	29•24
Electropolishing .....	29•25
Treatment of Plating Wastes .....	29•25
<b>Metallic Coating Processes Other Than Plating</b> ....	<b>29•26</b>
Hot Dip Galvanized Coatings .....	29•26
Aluminum Coating of Steel .....	29•26
55% Aluminum-Zinc Alloy Coated Steel Sheet and Wire .....	29•28
Hot Dip Tin Coating of Steel and Cast Iron .....	29•28
Babbiting .....	29•28
Hot Dip Lead Alloy Coating of Steel .....	29•29
Thermal Spray Coatings .....	29•29
Oxidation Protective Coatings for Superalloys and Refractory Metals .....	29•29
Chemical Vapor Deposition .....	29•30
Vacuum Coating .....	29•31
Sputtering .....	29•33
Ion Plating .....	29•33
Ion Implantation .....	29•34
<b>Nonmetallic Coating Processes</b> .....	<b>29•34</b>
Phosphate Coating .....	29•34
Chromate Conversion Coating .....	29•35
Painting .....	29•35
Rust-Preventive Compounds .....	29•38
Porcelain Enameling .....	29•38
Ceramic Coating .....	29•40
Development of Corrosion and Wear Resistance by Oxidation of Liquid Nitrided Surfaces .....	29•41
<b>Descaling and Cleaning of Stainless Steels and Heat-Resisting Alloys</b> .....	<b>29•42</b>
<b>Cleaning and Finishing of Nonferrous Metals</b> .....	<b>29•43</b>
Aluminum and Aluminum Alloys .....	29•43
Copper and Copper Alloys .....	29•45
Magnesium Alloys .....	29•46
Nickel and Nickel Alloys .....	29•48
Zinc Alloys .....	29•48
Reactive and Refractory Metals and Alloys .....	29•48
<b>Corrosion Theory</b> .....	<b>29•51</b>
<b>Selected References on Surface Technology</b> .....	<b>29•54</b>
<b>30 JOINING</b> .....	<b>30•1</b>
<b>Introduction and Overview</b> .....	<b>30•1</b>
Principles of Joining .....	30•1
Process Selection .....	30•6
Joint Design and Preparation .....	30•10
<b>Arc Welding</b> .....	<b>30•11</b>
Shielded Metal-Arc Welding .....	30•11
Gas Metal-Arc Welding (MIG Welding) .....	30•13
Flux-Cored Arc Welding .....	30•16
Submerged-Arc Welding .....	30•17
Gas Tungsten-Arc Welding (TIG Welding) .....	30•21
Plasma-Arc Welding .....	30•23
Electroslag Welding .....	30•25
Electrogas Welding .....	30•26
Arc Welding of Hardenable Carbon and Alloy Steels .....	30•27
Arc Welding of Cast Irons .....	30•31
Arc Welding of Stainless Steels .....	30•32
Arc Welding of Heat-Resistant Alloys .....	30•36
Arc Welding of Aluminum Alloys .....	30•37
Arc Welding of Copper and Copper Alloys .....	30•41
Arc Welding of Magnesium Alloys .....	30•42
Arc Welding of Nickel Alloys .....	30•43
Arc Welding of Titanium and Titanium Alloys ..	30•44
<b>Resistance Welding</b> .....	<b>30•45</b>
Resistance Spot Welding .....	30•45
Resistance Seam Welding .....	30•47
Projection Welding .....	30•48
Resistance Welding of Stainless Steels .....	30•50
Resistance Welding of Aluminum Alloys .....	30•51
Resistance Welding of Copper and Copper Alloys .....	30•52
Flash Welding .....	30•53
<b>Other Welding Processes</b> .....	<b>30•55</b>
Oxyfuel Gas Welding Processes and Their Application to Steel .....	30•55
Oxyacetylene Braze Welding of Steel and Cast Irons .....	30•56
Electron Beam Welding .....	30•56
Laser Beam Welding .....	30•57
Solid-State Welding .....	30•57
Thermit Welding .....	30•57
Explosion Welding .....	30•58
Friction Welding .....	30•58

Stud Welding ..... 30•58  
 Percussion Welding ..... 30•59  
 Ultrasonic Welding ..... 30•59  
 High-Frequency Welding ..... 30•59  
 Hard Facing ..... 30•59  
**Brazing ..... 30•61**  
 Furnace Brazing of Steels ..... 30•61  
 Torch Brazing of Steels ..... 30•63  
 Induction Brazing of Steels ..... 30•64  
 Resistance Brazing ..... 30•65  
 Dip Brazing of Steels in Molten Salt ..... 30•67  
 Brazing of Cast Irons ..... 30•67  
 Brazing of Stainless Steels ..... 30•68  
 Brazing of Heat-Resistant Alloys ..... 30•69  
 Brazing of Aluminum Alloys ..... 30•70  
 Brazing of Copper and Copper Alloys ..... 30•71  
**Soldering ..... 30•73**

**31 RECYCLING OF METALS AND ALLOYS ..... 31•1**  
 Introduction and Overview ..... 31•1  
 Recycling of Specific Metals and Alloys ..... 31•4  
 Selected References on Recycling ..... 31•6

**Part IV. Testing and Inspection**

**32 FAILURE ANALYSIS ..... 32•1**  
**Engineering Aspects of Failure and Failure Analysis ..... 32•1**  
 General Practice in Failure Analysis ..... 32•1  
 Fracture Mechanics — Fatigue and Fracture ..... 32•2  
 Fracture Toughness ..... 32•5  
**Failures From Various Mechanisms and Related Environmental Factors ..... 32•8**  
 Identification of Types of Failures ..... 32•8  
 Ductile and Brittle Fractures ..... 32•9  
 Fatigue Failures ..... 32•13  
 Distortion Failures ..... 32•17  
 Wear Failures ..... 32•18  
 Fretting Failures ..... 32•19  
 Corrosion Failures ..... 32•20  
 Stress-Corrosion Cracking ..... 32•24  
 Liquid-Metal Embrittlement ..... 32•26  
 Deleterious Effects of Hydrogen ..... 32•27  
 Corrosion-Fatigue Failures ..... 32•28  
 Elevated-Temperature Failures ..... 32•29

**33 NONDESTRUCTIVE TESTING ..... 33•1**  
**Liquid-Penetrant Inspection ..... 33•1**  
**Magnetic-Particle Inspection ..... 33•6**  
**Eddy-Current Inspection ..... 33•13**  
**Electromagnetic Sorting and Testing ..... 33•18**  
**Radiography ..... 33•23**  
 Radiographic Inspection ..... 33•23  
 Inspection by Neutron Radiography ..... 33•31  
**Ultrasonic Inspection ..... 33•32**  
**Holography ..... 33•40**  
 Inspection by Optical Holography ..... 33•40  
 Inspection by Acoustical Holography ..... 33•41  
**Acoustic-Emission Inspection ..... 33•42**  
**Microwave Inspection ..... 33•43**  
**Thermal Inspection ..... 33•44**  
**Leak Testing ..... 33•45**  
**Rapid Identification of Metals and Alloys ..... 33•46**

Sorting by Magnetic Properties and Weight ..... 33•46  
 Spark Testing of Ferrous Alloys ..... 33•47  
 Chemical Spot Testing ..... 33•48  
**Selected References on Nondestructive Testing ..... 33•52**

**34 MECHANICAL TESTING ..... 34•1**  
**Introduction to Mechanical Testing ..... 34•1**  
**Hardness Testing ..... 34•4**  
**Tension and Compression Testing ..... 34•12**  
 Tension Testing ..... 34•12  
 Compression Testing ..... 34•15  
**Fracture Testing ..... 34•18**  
 Impact Testing ..... 34•18  
 Fracture-Toughness Testing ..... 34•21  
**Fatigue Testing ..... 34•28**  
**Creep, Shear and Torsion Testing ..... 34•35**  
 Creep and Creep-Rupture Testing ..... 34•35  
 Shear Testing ..... 34•36  
 Torsion Testing ..... 34•37  
**Formability Testing ..... 34•38**  
**Selected References on Mechanical Testing ..... 34•42**

**35 METALLOGRAPHY ..... 35•1**  
**Metallographic Practice Generally Applicable to All Metals ..... 35•1**  
 Metallographic Methods ..... 35•1  
 Principles of Technique Selection in Mechanical Polishing ..... 35•5  
 Electrolytic Polishing ..... 35•10  
 Procedures and Precautions for Preparation and Handling of Etchants ..... 35•13  
 Measurement of Microstructure ..... 35•16  
 Application of Electron Microscopes in Metallurgy ..... 35•20  
**Metallographic Technique for Ferrous Metals ..... 35•24**  
 Technique for Carbon and Alloy Steels ..... 35•24  
 Technique for Case Hardening Steel ..... 35•29  
 Technique for Steel Castings ..... 35•29  
 Technique for Cast Irons ..... 35•30  
 Technique for Tool Materials ..... 35•33  
 Technique for Ferrous Powder Metallurgy Alloys ..... 35•34  
 Technique for Stainless Steel Casting Alloys ..... 35•35  
 Technique for Fe-Cr-Ni Heat-Resistant Casting Alloys ..... 35•36  
**Typical Microstructures of Iron-Base Alloys ..... 35•37**  
**Metallographic Technique for Nonferrous Metals and Special-Purpose Alloys ..... 35•47**  
 • Technique for Refractory Metals and Alloys ..... 35•47  
 Technique for Magnetic Materials ..... 35•48  
 Technique for Electrical Contact Materials ..... 35•49  
 Technique for Sleeve Bearing Materials ..... 35•50  
 Technique for Aluminum Alloys ..... 35•51  
 Technique for Copper and Copper Alloys ..... 35•53  
 Technique for Lead and Lead Alloys ..... 35•54  
 Technique for Magnesium Alloys ..... 35•55  
 Technique for Nickel and Nickel Alloys ..... 35•56  
 Technique for Wrought Heat-Resisting Alloys ..... 35•56  
 Technique for Tin and Tin Alloys ..... 35•57  
 Technique for Titanium and Titanium Alloys ..... 35•58  
 Technique for Zinc and Zinc Alloys ..... 35•59
