

# GALVANIC CORROSION

Harvey P. Hack, *editor*

STP 978

# Contents

<b>Overview</b>	1
-----------------	---

## THEORY

<b>Electrochemical Theory of Galvanic Corrosion</b> —JOHN W. OLDFIELD	5
<b>Galvanic Corrosion Caused by Corrosion Products</b> —S. MARK WILHELM	23
<b>Hydrogen Embrittlement of Plated High-Strength 4340 Steel by Galvanic Corrosion</b> —WILLIAM J. POLLOCK AND BRUCE R. W. HINTON	35

## COMPUTER PREDICTION

<b>Use of the Microcomputer for Calculation of the Distribution of Galvanic Corrosion and Cathodic Protection in Seawater Systems</b> —DAVID J. ASTLEY	53
<b>Galvanic Corrosion Prediction and Experiments Assisted by Numerical Analysis</b> —JOHN W. FU	79
<b>Computer Modelling of Galvanic Corrosion</b> —ROBERT A. ADEY AND SEYYED M. NIKU	96
<b>Comparisons of Localized Ionic Currents as Measured from 1-D and 3-D Vibrating Probes with Finite-Element Predictions for an Iron-Copper Galvanic Couple</b> —ROLF G. KASPER AND C. ROBERT CROWE	118
<b>Prediction of Tube-Tubesheet Galvanic Corrosion Using Finite Element and Wagner Number Analyses</b> —JOHN R. SCULLY AND HARVEY P. HACK	136

## TESTING AND CONTROL

<b>Quantitative Assessment of Atmospheric Galvanic Corrosion</b> —DESMOND P. DOYLE AND T. EDMUND WRIGHT	161
<b>Integration of Galvanic Corrosion Control Technology into Design</b> —JAMES F. JENKINS	174
<b>Controlling Galvanic Corrosion in Soils with Cathodic Protection</b> —JANE M. TURNER	178

## ENVIRONMENTS

<b>The Effect of Soil Resistivity and Soil Temperature on the Corrosion of Galvanically Coupled Metals in Soils</b> —EDWARD ESCALANTE	193
---	-----

<b>Evaluation and Prediction of Galvanic Corrosion in Oxidizing Solutions—</b> NARASI SRIDHAR AND JURI KOLTS	203
<b>Galvanic Corrosion of Duplex Fe-Cr-10%Ni Alloys in Reducing Acids—</b> YUNG-HERNG YAU AND MICHAEL A. STREICHER	220
<b>Galvanic Corrosion Resistance of Welded Dissimilar Nickel-Base Alloys—</b> RICHARD A. CORBETT, WILLIAM S. MORRISON, AND ROBERT J. SNYDER	235

#### INDUSTRIES

<b>Galvanic Corrosion on Automobiles—</b> ROBERT BABOAIN, GARDNER HAYNES, AND ROGER TURCOTTE	249
<b>Galvanic Corrosion in Oil and Gas Production—</b> K. D. EFIRD	260
<b>Avoiding Galvanic Corrosion Problems in the Telephone Cable Plant—</b> GEORGE SCHICK	283
<b>Galvanic Corrosion in Navy Ships—</b> ALASTAIR G. S. MORTON	291
<b>Galvanic Corrosion in Power Plant Condensers—</b> GEORGE A. GEHRING, JR.	301
<b>Experience with Cathodic Protection of Power Plant Condensers Operating with High Performance Ferritic Stainless Steel Tubing—</b> LAWRENCE S. REDMERSKI, JOHN J. ECKENROD, KENNETH E. PINNOW, AND CURTIS W. KOVACH	310
<b>Bimetallic Joints in Multistage Flash Desalination Plants—</b> SALEH G. AL ZAHARANI, B. TODD, AND J. W. OLDFIELD	323

#### SUPPLEMENTARY ARTICLE ON ENVIRONMENTS

<b>Galvanic Corrosion of Piping and Fitting Alloys in Sulfide-Modified Seawater—</b> HARVEY P. HACK	339
<b>Index</b>	353
