

KINETICS  
AND  
SPECTROSCOPY  
OF  
CARBENES  
AND  
BIRADICALS

EDITED BY  
MATTHEW S. PLATZ

---

## Contents

### Chapter 1

#### Spectroscopy of Cyclobutadiene

*Bradley R. Arnold and Josef Michl*

1. Introduction .....	1
2. Precursors for Matrix-Isolated Cyclobutadiene .....	4
2.1. Photochemical Precursors .....	4
2.2. Pyrolytic Precursors .....	5
3. The Electronic Ground State .....	6
3.1. Geometry .....	6
3.2. Vibrational Spectroscopy .....	7
3.3. Interconversion of Valence Tautomers .....	15
3.4. NMR Spectroscopy .....	17
4. Electronically Excited States .....	18
4.1. Experimental Observations .....	18
4.2. Theoretical Results—Triplets .....	19
4.3. Theoretical Results—Singlets .....	20
5. Ionized States .....	24
6. Intermolecular Interactions .....	25
6.1. IR Spectra .....	26
6.2. UV-Visible Spectra .....	26
7. Heterocyclic Analogues .....	27
8. Concluding Remarks .....	30
<i>References</i> .....	32

### Chapter 2

#### Time-Resolved Photoacoustic Calorimetry of Carbenes and Biradicals

*Kevin S. Peters*

1. Introduction .....	37
2. Theory .....	38
3. Experimental Design .....	40

4. Applications .....	41
4.1. Biradicals .....	42
4.2. Substituent Effects on Bond Enthalpies .....	43
4.3. Diphenylcarbene .....	45
<i>References</i> .....	48

### Chapter 3

#### EPR Study of Polymethylene Radicals

*Gerhard L. Closs and Malcolm D. E. Forbes*

1. Introduction .....	51
2. Instrumentation .....	52
3. The Chemistry of Biradical Generation .....	54
4. The EPR Spectra and Their Interpretations .....	56
5. Simulation of the EPR Spectra of Acyl-Alkyl and Dialkyl Biradicals in Liquid Solution .....	63
6. Exchange Interactions and the Mechanisms of Spin-Spin Coupling in Biradicals .....	69
7. Summary and Outlook .....	73
<i>References</i> .....	74

### Chapter 4

#### Laser Flash Photolysis Studies of Intersystem Crossing in Biradicals and Alkene Triplets

*Richard A. Caldwell*

1. Introduction .....	77
1.1. Photochemical Intermediates and Laser Flash Photolysis .....	77
1.2. Biradicals and Alkene Triplets .....	80
1.3. Mechanisms for Intersystem Crossing .....	80
2. Steady-State Chemistry of Biradicals .....	85
3. Early Transient Studies of Biradicals .....	87
4. Chemistry and Early Transient Studies of Olefin Triplets .....	88
5. Kinetics of Decay of Triplet Biradicals and Olefin Triplets .....	90
5.1. Norrish II Biradicals .....	90
5.2. Norrish I Biradicals .....	97
5.3. Oxatetramethylenes: Paterno-Buchi Biradicals .....	102
5.4. Hydrocarbon Biradicals .....	103
5.5. Perpendicular Alkene Triplets .....	110
6. Singlet Biradicals and Singlet Excited Alkenes .....	112
<i>References</i> .....	113

## Chapter 5

## Matrix Isolation EPR Spectroscopy of Biradicals

*Dennis A. Dougherty*

1. Introduction .....	117
2. Triplet EPR Spectroscopy .....	118
2.1. The Zero-Field Splitting .....	118
2.2. Hyperfine Coupling .....	121
2.3. The Curie Plot .....	122
2.4. Decay Behavior .....	122
3. Localized Biradicals—Cyclobutanediyls and Cyclopentandiyls .....	123
3.1. Zero-Field Splittings .....	124
3.2. Hyperfine Coupling .....	125
3.3. Decay Behavior .....	126
4. Delocalized Biradicals .....	127
4.1. Trimethylenemethanes (TMM) .....	129
4.2. Tetramethyleneethanes (TME) .....	131
4.3. Quinodimethanes and Related Structures .....	133
4.4. [4 <i>n</i> ] Annulenes .....	136
References .....	139

## Chapter 6

## The Chemistry, Kinetics, and Mechanisms of Triplet Carbene Processes in Low-Temperature Glasses and Solids

*Matthew S. Platz*

1. Introduction .....	143
2. Product Studies .....	147
2.1. Alkene Matrices .....	147
2.2. Alkane and Chlorocarbon Matrices .....	159
2.3. Alcohol Matrices .....	164
2.4. Ethereal and Amine Glasses .....	185
2.5. Matrix Effects on Intramolecular Processes .....	187
3. The Kinetics of Decay of Triplet Carbenes in Glasses and Polycrystals as Measured by EPR Spectroscopy .....	195
4. EPR Analysis of the Radical Pair Products .....	201
5. Laser Flash Photolysis Studies of Carbenes in Low-Temperature Glasses .....	202
6. Solution Phase Flash Photolysis .....	206
7. Conclusions .....	207
References .....	209

## Chapter 7

## Laser Flash Photolytic Studies of Arylhalocarbenes

*Robert A. Moss and Nicholas J. Turro*

1. Introduction .....	213
2. Kinetics of Arylhalocarbene Reactions .....	214
2.1. Observations of Arylhalocarbenes .....	214
2.2. Absolute Rate Studies of Arylhalocarbenes at Ambient Temperature; Reactivity toward Alkenes .....	216
2.3. Solvent Effects .....	222
2.4. Other Substrates .....	222
2.5. Other Carbenes .....	225
3. Activation Parameters for Carbene/Alkene Additions .....	226
3.1. Variable-Temperature Studies .....	226
3.2. The Carbene Complex Model .....	226
3.3. The Entropy Control Model .....	229
3.4. A Broader Study of Carbene/Alkene Structure-Reactivity Relations .....	231
3.5. Volumes of Activation .....	234
4. Conclusion .....	236
<i>References</i> .....	237

## Chapter 8

## Laser Flash Photolysis Studies of Triplet Carbenes

*Matthew S. Platz and Vincent M. Maloney*

1. Introduction .....	239
2. Kinetics and Spectroscopy of Triplet Carbenes .....	242
2.1. 1- and 2-Naphthylcarbene and Related Species .....	242
2.2. Diphenylcarbene and Derivatives .....	264
2.3. Fluorenylidene and Derivatives .....	285
2.4. Methylene .....	298
2.5. Alkylcarbenes and Other Simple Carbenes .....	300
2.6. Phenylcarbomethoxycarbene .....	302
2.7. Phenylnitrene .....	303
2.8. Polycyclic Arylnitrenes .....	319
3. Mechanistic Considerations .....	320
3.1. Issues of Spin State Equilibration and Surface Crossings. A Case History: The Reaction of Triplet Diphenylcarbene with Methanol .....	320
3.2. Reversibly Formed Ylids and Complexes? .....	333
3.3. Chlorine Transfer Reactions .....	344
4. Outlook and Conclusions .....	347
<i>References</i> .....	348

## Chapter 9

## Solution Photochemistry of Carbenes and Biradicals

*J. C. Scaiano*

1. Introduction .....	353
2. A Two-Laser, Two-Color Approach to Laser Flash Photolysis .....	354
3. Kinetic and Spectroscopic Studies .....	355
3.1. Luminescence from Excited Carbenes and Biradicals .....	355
3.2. Transient Absorption Spectra for Excited Carbenes .....	361
3.3. Intramolecular Reactions of Excited Carbenes and Biradicals .....	362
3.4. Intermolecular Reactions of Excited Carbenes .....	365
4. Concluding Remarks .....	367
<i>References</i> .....	367
Index .....	369
