## **Introduction 1**

Who Should Use This Book? .....	2
How This Book Is Organized .....	2
The CD-ROM .....	4
Conventions Used in This Book .....	4

## **I Overview of the World Wide Web 7**

### **1 Introducing the World Wide Web 9**

The Genealogy of the Web .....	10
Electronic Mail: The First Application .....	12
Usenet News .....	14
TCP/IP .....	17
The Internet .....	23
The Web Explosion .....	26
The Web: What Is It Good For? .....	29
Who Uses the Web and for What? .....	30
Content .....	30
Presentation .....	31
HTML: The Bricks and Mortar of the Web .....	32
A Short Internet Glossary .....	33

### **2 How Web Browsers and Servers Work Together 37**

How the Web Works .....	38
The Client Computer .....	39
The Server Computer .....	39
Communication: Requesting Information via URLs .....	40
Servers and HTTP .....	44
What Servers Do .....	45
HTTP .....	46
An Overview of Popular HTTP Server Programs .....	46
Browsers and HTML .....	52
What Browsers Do .....	52
HTML .....	54
An Overview of a Few Popular Web Browser Programs .....	55

<b>II Basic HTML Presentation</b>	<b>61</b>
<b>3 Distributing Information with HTML</b>	<b>63</b>
Image Is <i>Not</i> Everything .....	63
The Right Stuff: What to Put on the Web .....	66
Keep Focused .....	67
On the Links .....	68
Timeliness .....	69
Create a Vortex .....	70
Business Sites .....	72
Organization Sites .....	74
Personal Sites .....	76
The Wrong Stuff: What <i>Not</i> to Put on the Web .....	77
The Bad .....	77
Legal Issues .....	82
Electronic Morality .....	83
Putting Existing Documents on the Web .....	84
What to Include .....	85
What to Omit .....	85
How to Reorganize .....	85
The Mechanics .....	86
<b>4 Building Blocks of HTML</b>	<b>87</b>
HTML and SGML: A Parent-Child Relationship .....	87
Advantages and Disadvantages .....	89
The Strength of the HTML Standard .....	90
HTML's DTD .....	91
Levels of HTML Conformance .....	91
Checking Conformance of Documents with HTML Standards .....	91
The Elements of HTML .....	94
Empty and Container Tags .....	95
HTML Tag Arguments .....	96
An Overview of HTML Elements .....	98
<b>5 The TITLE, HEAD, and HTML Tags</b>	<b>101</b>
The <HTML> Tag .....	101
The Head Section: Using the HEAD Element .....	102
How to Use the TITLE Element .....	103
Creating Relationships between HTML Documents .....	106
Using <BASE> to Simplify URLs .....	106
Using LINK .....	108
Indexing a Document .....	110
HTML's ISINDEX Element .....	110
Using an Alternate Indexing Method .....	111
Did We Forget Anything? The META Element .....	112

**6 Creating an HTML Document 115**

The Basics of the Body Element .....	115
Starting with the Required Elements .....	116
Breaking Text into Paragraphs .....	117
Adding Line Breaks .....	120
Creating a Text Outline .....	122
Adding Headings .....	123
Adding Horizontal Lines .....	125
Formatting Your Text .....	127
Logical Format Elements .....	127
Physical Format Elements .....	129
Additional Text Elements .....	130
Special Characters .....	130
The Address Element .....	131
The <Blockquote> Element .....	132
Using Preformatted Text .....	133
Adding Hidden Comments .....	136
HTML 3.0 Additions .....	137
Text Positioning .....	138
Additions to the   Element .....	138
The <NOBR> Element .....	139
Text Format Elements .....	140
Body Element Attributes .....	141

**7 Linking HTML Documents 143**

Linking to Other Net Resources .....	143
Creating a Link to E-Mail .....	144
Creating a Link to Usenet News .....	146
Making FTP Available on Your Site .....	148
Linking Your Home Page to a Gopher Site .....	151
Providing Access to a Large Database with a WAIS Link .....	152
Accessing Remote Computers with Telnet Links .....	154
How Links Work Together .....	156

**8 Common Conventions in HTML Documents 157**

Working Around Pictures .....	157
Navigating Without Imagemaps .....	158
Same Page, Same Links .....	158
Different Page, Same Links .....	159
Directing the User .....	160
Information from Many Sources .....	160
Distribution of Information .....	161
Related Information .....	161
Unrelated Information .....	162
Indicating File Size .....	163
Your Name and the Time .....	164
Stating Your Name .....	164
Date Last Modified .....	165

Giving Credit Where Credit Is Due .....	166
Who Created This Page? .....	166
Who's in Charge of This Site? .....	168
Who to Contact? .....	169
The Tools You Used .....	170
Award Notices .....	170
Kudos and Praise .....	170
Validation .....	171
Preferred Viewing .....	171
<b>9 Displaying Text in Lists</b> .....	<b>173</b>
Creating an Ordered List .....	173
Using the <OL> Tag .....	174
Using Netscape Extensions with the <OL> Tag .....	177
Creating an Unordered List .....	179
Using the <UL> Tag .....	179
Using the Netscape <i>TYPE</i> Extension with the <UL> Tag .....	180
Creating Menu Lists .....	182
Creating Directory Lists .....	184
Creating Definition Lists .....	185
Combining List Types .....	187
Manually Formatting Lists .....	189
<b>10 Adding Graphics to Your Home Page</b> .....	<b>191</b>
When Graphics Should Be Used .....	191
What Your Images Should and Shouldn't Have .....	192
Use an Appropriate Graphic .....	193
Crop Your Image .....	193
Don't Use Copyrighted Material .....	194
Pornographic Images .....	194
Social Aspects .....	195
Legal Aspects .....	195
GIFs .....	196
Technical Aspects of GIF .....	196
How GIF Became Popular .....	196
Legal Aspects of GIF .....	196
JPEG .....	197
Technical Aspects of JPEG .....	197
How JPEG Became Popular .....	197
Legal Aspects of JPEG .....	197
The File Format Debate: GIF versus JPEG .....	197
File Speed .....	198
Browser Support .....	198
Colors .....	199
Which Looks Better? .....	199
Making Your Decision .....	199
Improvements in GIFs and JPEGs .....	200
Interlaced GIF .....	200
Transparent GIF .....	200

Progressive JPEG .....	201
Graphics and Home Pages .....	202
The IMG Tag .....	202
Positioning the Image .....	203
Clickable Images .....	205
Background Images .....	205
Lists and Images .....	205
Alternatives to Graphics .....	206
<b>11 Handling Images</b> .....	<b>209</b>
The Basics of an Image .....	209
The Color Palette .....	210
The Image Itself .....	210
Compressing the Image .....	210
An Image's File Size .....	211
Why Should I Care? .....	211
What Affects File Size? .....	212
How Do I Control the File Size? .....	212
Types of Images .....	212
Reasons for Using Custom Images .....	213
Copying Custom Images .....	213
Controlling the Image's Contents .....	214
Creating the Image You Want .....	215
Creating a Graphic .....	215
Image Tools .....	216
HTML Document Considerations .....	217
Paint Program General Features .....	218
Achieving the Right Look .....	219
Working with Scanned Images .....	221
When to Use Scanned Images .....	221
What's Needed for Scanned Images .....	222
Manipulating Scanned Images .....	222
All the Colors of the Rainbow .....	223
Programs for You .....	223
Paint Shop Pro .....	224
Matt Paint .....	225
<b>III Advanced HTML Presentation</b> .....	<b>227</b>
<b>12 Graphics Navigation with Imagemaps</b> .....	<b>229</b>
A Brief Introduction to Imagemaps .....	229
The Pros and Cons of Imagemaps .....	231
When to Use Imagemaps .....	231
When Not to Use Imagemaps .....	232
Imagemap Definition Files .....	233
The CERN Format .....	234
The NCSA Format .....	234
Client-Side Imagemaps .....	234
Imagemap Terminology .....	235

The Imagemap Graphic .....	235
The Imagemap Definition File .....	235
Connecting Images and Regions .....	235
Putting It All Together .....	235
Imagemap Region Types .....	236
The Circle Region .....	236
The Polygon Region .....	237
The Rectangle Region .....	237
The Point Region .....	237
The Default Region .....	237
Imagemaps: From Browser to Server and Back .....	239
Creating an Imagemap .....	239
The Imagemap Graphics .....	239
How to Create the Imagemap Definition File .....	241
Putting Imagemaps in Your Home Page .....	242
Programs That Make Mapping Easier .....	242
Working with Mapedit .....	243
Using WebMap .....	247
Putting Your Imagemap Through a Dry Run .....	249
Textual Alternatives to Imagemaps .....	250

### **13 Tables and Math Equations** **251**

HTML Tables 101 .....	252
Basic HTML Table Elements .....	252
Aligning Table Elements .....	254
Intermediate Tables .....	257
Borderless Tables .....	257
Row and Column Spanning .....	259
Browser Specific Table Notes .....	262
Empty Cells and Table Appearance .....	262
Netscape Table Enhancements .....	264
Table Alternatives .....	266
Table Examples .....	270
Combining Text and Lists .....	270
Nesting HTML Tables .....	272
Using Math Equations .....	274
HTML Math Equations Using Arena .....	274
Math Equations for Browsers without HTML 3.0 Support .....	274

### **14 HTML Style Sheets** **277**

Creating Personal Web Pages .....	278
Picking a Topic .....	278
Planning Content .....	279
Creating a Home Page .....	280
Creating Corporate Web Pages .....	292
Focusing the Pitch .....	293
A Corporate Home Page .....	294
Templates for Lists .....	301
Hierarchical Lists .....	301

Expandable Lists .....	305
Template Tools .....	308
Creating a Page Directly on the Web .....	308
Templates for Word Processors .....	309
<b>15 Netscape-Specific Extensions to HTML</b>	<b>311</b>
Should You Use Browser-Specific Extensions? .....	312
Netscape Version 1.1 HTML Extensions .....	314
Netscape Version 2.0 HTML Extensions .....	316
Frames .....	317
The <i>FRAMESET</i> Container .....	318
The <i>FRAME</i> Tag .....	320
<i>NOFRAMES</i> .....	323
Some Frame Examples .....	323
Targeted Windows .....	329
Embedded Objects .....	330
Dynamic Documents .....	332
Java Applets and JavaScript .....	334
Client-Side Imagemaps .....	334
Background Graphics and Color .....	338
Form Enhancements .....	342
HTTP File Upload .....	342
<i>TEXTAREA</i> Wrap .....	343
Character Attributes .....	343
<i>CENTER</i> and <i>ALIGN</i> .....	345
Horizontal Rules .....	346
<b>16 HTML Extensions in Internet Explorer, Mosaic, and HTML 3.0</b>	<b>347</b>
Microsoft Internet Explorer .....	348
Background Sound .....	350
Explorer Additions to the <i>BODY</i> Tag .....	350
<i>FONT</i> Tag Enhancements .....	351
Inline Video with the <i>IMG</i> Tag .....	352
Scrolling <i>MARQUEES</i> .....	353
Explorer Tables .....	357
Mosaic .....	358
HTML 3.0 .....	359
Beyond HTML: VRML, Scripts, and Live Content .....	363
<b>17 VRML</b>	<b>367</b>
What Is VRML? .....	368
Example VRML World .....	368
Navigating VRML Worlds .....	369
Hypertext Links .....	372
VRML Basics .....	373
Programming in VRML .....	373
VRML Tools .....	375
VRML Browsers .....	375
VRML Authoring Tools .....	376

Using WebFX, a VRML Plug-In for Netscape .....	377
Installing WebFX .....	377
Navigating through a Virtual World Using WebFX .....	378
Configuring WebFX .....	380
Example VRML World on the World Wide Web .....	382
Authoring VRML Worlds Using Fountain .....	385
Installing Fountain .....	385
VRML Authoring Example Using Fountain .....	386
VRML Resources on the Internet .....	394
<b>18 Multimedia and Animation on the Web</b> .....	<b>397</b>
What Is Multimedia? .....	398
The Sound Component .....	398
Sound Files .....	399
The Animation Component .....	399
Animation Files .....	399
Letting People Know About Multimedia .....	400
Not Everybody Can Handle Multimedia .....	400
Letting the Users Decide When to See Multimedia .....	400
Making Multiple Formats Available .....	401
Different Files, Same Content .....	401
Different Computers, Same File .....	402
Size Considerations .....	403
Just How Big Is Too Big? .....	403
File Compression .....	404
MPEG: What It Is and How to See It .....	404
Overview of MPEG .....	405
MPEG on Windows 95 .....	405
MPEG on Macintosh .....	406
Creating MPEGs .....	407
QuickTime MOVies .....	407
Watching MOVs on the Mac .....	407
Watching MOVs on Windows 95 .....	408
Making Your Own MOVies .....	408
All About AVI .....	410
What Went Wrong? .....	410
Playing AVIs .....	410
AVI's Comeback? .....	411
Creating Your Own AVI File .....	411
Real-Time Sound .....	412
What Is RealAudio? .....	412
What's So Great About RealAudio? .....	412
How Can I Support RealAudio? .....	412
How Do I Get RealAudio? .....	413
Putting RealAudio in Your Home Page .....	414
Multimedia in Your Home Page .....	414
What Can I Do with Shockwave? .....	414
How Can I Support Shockwave? .....	414

How Do I Get Shockwave? .....	415
Where Can I Find Director Files? .....	415
Putting Director Files in Your Home Page .....	416
Converting Sounds .....	417
Goldwave .....	417
SoundApp .....	419
Converting Multimedia .....	420
SmartVid .....	420
Sparkle .....	421
Where to Find Files .....	421

## **19 Verifying and Checking a Web Page 423**

What Is Web Page Verification? .....	424
Verifying HTML Source .....	424
Verifying Links .....	426
Examining the Options .....	426
Finding Verification Services on the Web .....	427
Using the WebTechs Verification Service .....	428
Selecting the Level of Conformance .....	431
Understanding Strict Mode .....	433
Selecting Responses to Include in Report .....	435
Testing an Entire URL or Pieces of HTML Source .....	436
Using Doctor HTML .....	437
Testing Links .....	438
Fine-Tuning Page Performance .....	439
Using Kinder, Gentler Validator .....	440
Using Weblint .....	442
Using an All-in-One Verification Page .....	444
Using Other Verification Services on the Web .....	446
Using HTMLchek .....	446
Using the U.S. Military Academy's Verification Service ..	447
Using Brown University's Verification Service .....	448
Using Harbinger's Verification Service .....	448
Using URL-Minder .....	449
Installing the WebTechs HTML Check Toolkit Locally .....	449
Obtaining and Installing Other Verification Suites .....	451
Obtaining and Using Weblint .....	452
Obtaining and Using HTMLchek .....	452
Obtaining and Using HTMLverify .....	452
Obtaining and Using MOMspider .....	453
Obtaining and Using Webxref .....	453
Obtaining and Using Ivrfy .....	454
Obtaining and Using Verify Web Links .....	454
Public Recognition for Quality Web Pages .....	455
High Five .....	456
Point Top Five .....	457
Learning Standard Web Practices from Other Developers .....	459

<b>20 Make Yourself Known</b>	<b>461</b>
What Kind of Advertising Do You Need? .....	462
Registering with WWW Search Servers .....	463
Major Search Servers .....	464
Registering with the Search Servers .....	466
Using Submission Services .....	470
What's New Servers .....	471
Best of the Web Listings .....	472
Links from Other Web Sites .....	473
Specialized Index Pages .....	476
Using the Newsgroups Effectively .....	477
The Announcement Groups .....	478
Other Newsgroups .....	479
Purchasing Advertising Space .....	481
Internet Malls .....	482
Using a Publicity Consultant .....	484
Other Ways to Advertise Your Site .....	485
<b>IV Forms and CGI</b>	<b>487</b>
<b>21 Forms and How They Work</b>	<b>489</b>
HTML Forms .....	489
An Overview of HTML Forms Tags .....	490
<FORM> .....	490
<TEXTAREA> .....	491
<SELECT> .....	492
<INPUT> .....	496
<input type="text"/> .....	496
TEXT .....	497
PASSWORD .....	497
CHECKBOX .....	498
RADIO .....	499
RESET .....	501
SUBMIT .....	502
<b>22 Form Layout and Design</b>	<b>503</b>
Using Line Break Tags .....	503
Forcing Fields onto Separate Lines .....	503
Working with Large Entry Fields .....	505
Using the Preformatted Text Tag to Line Up Forms .....	507
Using HTML Tables to Line Up Forms .....	509
Using Paragraph Marks to Separate Form Sections .....	511
Using List Tags .....	512
Indenting Form Entries with Descriptive Lists .....	512
Using Ordered Lists to Number Fields .....	513
Check Box and Radio Button Layouts .....	514
Setting Up Check Boxes or Radio Buttons in a Line .....	514

Lists of Check Boxes .....	515
Making a Grid .....	517
Multiple Forms in a Document .....	518
Combining Forms with Tables .....	520
Final Notes on Form Layouts .....	524

## **23 All About CGI Scripts 525**

What Is CGI? .....	525
How the CGI Works .....	526
The Process .....	526
Characteristics of the CGI .....	527
The MIME Content-type Output Header .....	528
Using a Content-type Output Header .....	529
Environment Variables .....	531
Uses for CGI Scripts .....	533
Processing Forms .....	533
Imagemaps .....	536
Animations .....	536
HTML "on the fly" .....	537
Counters .....	540
Search Engines .....	541
Interface with WAIS Servers .....	543
Spiders, Robots, & WebCrawlers .....	544
Writing CGI Scripts .....	545
Can You Write CGI Scripts? .....	545
Which Language Should You Use? .....	546
Common CGI Scripting Languages .....	547
Compiled Languages .....	548
Interpreted Languages .....	550
Compiled/Interpreted Languages .....	552
Finding CGI Resources .....	553
Listserves .....	553
Newsgroups .....	553
Individual Archives .....	554
Beyond the CGI .....	554
SSI (Server Side Includes) .....	554
JavaScript .....	555
Visual Basic (VB) Scripting .....	556

## **24 Sample Code and CGI Scripts 557**

Form Output .....	557
The Output Format .....	558
Using cgi-lib.pl for Form Processing .....	558
Sample E-Mail Form .....	559
How the Script Works .....	560
The HTML E-Mail Form's CGI Script .....	562
Input/Output Look .....	562
A Color Conversion CGI Script .....	563
How the Script Works .....	564

The CGI Script .....	565
Input/Output Look .....	568
CGI Animation Script .....	569
How the Script Works .....	569
The CGI Script .....	570
Input/Output Look .....	571
A Utility Script .....	571
How the Script Works .....	571
The Script .....	572
Input/Output Look .....	573
Creating a Guestbook .....	574
The Guestbook's Form .....	574
CGI Subroutines .....	576
How the Script Works .....	579
Guestbook Script with Subroutines .....	581
Input/Output Look .....	583
Improving the Guestbook's Form and CGI Script .....	587
Table-Formatting the Guestbook Form .....	587
Creating a Better Error-Checking Subroutine .....	589
How the Script Works .....	590
Advanced Guestbook CGI Script .....	591
An Improved Guestbook Response Page .....	594
Getting More Out of a Script .....	596

## **V Developing Interactive Web Pages 597**

### **25 Adding Live Chat Pages to Your Site 599**

Surveying Chat and Chat Pages .....	600
Defining Chat and Its Uses .....	601
Finding Chat Pages .....	603
Chatting Live Using Forms .....	604
Basic Principles .....	605
Example: WebChat .....	607
How to Set Up Chat with Forms on Your Site .....	610
Linking Live Chat to Browsers .....	616
Planning for the Future .....	618

### **26 Java and JavaScript 621**

How Java Got Started .....	621
Getting Started with Java .....	622
Using Java Applets in Web Pages .....	623
JavaScript .....	631
Java Security .....	634
Notable Java Applets .....	635
Java and JavaScript Resources .....	637
Development Tools .....	637
Web Resources .....	637
Internet Newsgroups and Mailing Lists .....	638

**VI HTML Authoring Tools 641****27 Netscape Navigator Gold 643**

What Is Netscape Gold? .....	643
Installing and Running Netscape Gold .....	644
Using Netscape Gold .....	645
Moving Around Netscape Editor .....	645
Navigating Through Netscape Windows .....	646
Creating a Web Page with Netscape Gold .....	646
Text and Fonts .....	647
Putting Graphics into Your Documents .....	648
Creating Links .....	650
Making a List .....	651
Horizontal Rules .....	653
Modifying HTML Elements .....	654
Changing Links .....	655
Cut, Copy, and Paste .....	656
Changing the Properties of Documents .....	658
Defining Your Current HTML Document .....	658
Specifying Default Attributes for Your Documents .....	660

**28 Microsoft Internet Assistant 663**

Getting Internet Assistant .....	663
Internet Assistant 1.0 .....	663
Internet Assistant 2.0 .....	664
Installing Internet Assistant .....	664
Using Internet Assistant .....	664
HTML View .....	664
Managing Text .....	665
Adding Graphics .....	665
Working with Links .....	666
Jumps and Destinations .....	668
Defining a Destination .....	668
Going to a Destination .....	668
Advanced HTML Tags .....	669
Tables .....	669
Creating Forms .....	670
Creating Lists .....	673
Special Features of Internet Assistant .....	674
Marquee .....	674
Background Sounds .....	675
Multimedia Files .....	675
Web Browse .....	676

**29 Quarterdeck WebAuthor 679**

Installing and Starting WebAuthor .....	679
Creating and Editing Web Pages .....	681
Converting Existing Documents .....	681

Key Elements of WebAuthor .....	682
General Work with WebAuthor .....	683
Working with Text .....	683
Specifying Styles .....	684
Adding Graphics .....	685
Adding Links .....	686
Creating Links .....	686
Graphics and Links .....	687
Jumps and Destinations .....	689
Editing Links .....	690
Tables and Forms with WebAuthor .....	690
Creating Tables .....	690
Creating Forms .....	692
Configuring WebAuthor .....	694
WebAuthor Program Options .....	694
WebAuthor Conversion Options .....	695

### **30 Other HTML Editors 699**

Stand-Alone Editors .....	700
Stand-Alone Editors' Strengths .....	700
Stand-Alone Editors' Weaknesses .....	701
Add-On Editors .....	701
Add-On Editors' Strengths .....	701
Add-On Editors' Weaknesses .....	702
Tags-Only Editors .....	702
Strengths of Tags-Only Editors .....	702
Weaknesses of Tags-Only Editors .....	703
WYSIWYG Editors .....	703
Strengths of WYSIWYG Editors .....	703
Weaknesses of WYSIWYG Editors .....	704
HotDog .....	704
Getting and Installing HotDog .....	705
Moving Around .....	705
Working with Links .....	706
Forms and Tables .....	708
Advanced Elements .....	709
Kenn Nesbitt's WebEdit .....	710
Getting and Installing WebEdit .....	711
The WebEdit Toolbars .....	711
Creating Links .....	712
HTML Tags .....	713
Special Features .....	713
Getting Help .....	713
Configuring WebEdit .....	715
Live Markup .....	715
Getting and Installing .....	715
General Navigation .....	716
Working with Elements .....	717
Arachnid .....	718
Getting Around .....	718

Objects and Arachnid .....	719
Adding Text .....	719
Managing Links .....	720
Working with Rules and Graphics .....	720
Putting Tables .....	721
Working with Forms .....	722
HTML Extensions .....	723
World Wide Web Weaver .....	724
Putting in HTML Elements .....	724
Forms and Tables .....	724
Text Tags .....	725
HTML.edit .....	726
Getting and Installing HTML.edit .....	726
Navigating HTML.edit .....	726
The Toolbar .....	728
Tags and Styles .....	729
Creating Links .....	729
Adding Images .....	730
Creating Tables .....	730
Creating Forms .....	732
asWedit .....	733
Getting and Installing asWedit .....	734
General Look and Feel .....	735
Working with Tags .....	735
Creating Links .....	736
Special Features .....	736
Emacs HTML Mode .....	737
HTML Tags Support .....	738
Entering Text .....	738
Creating Lists .....	739

## **VII Sample HTML Applications 741**

### **31 Online Visitor's Guide to Jubilee Falls State Park 743**

Defining Goals .....	744
Outlining the Application .....	745
Creating the Body Text .....	748
Creating the Graphics and Images .....	748
Creating the Input Forms .....	750
Writing the Pages .....	753
The Home Page .....	753
The Introduction Page .....	754
The Schedule Page .....	755
The Activities Page .....	758
The Tour Page .....	760
