THIN-WALLED STRUCTURES

Developments in Theory and Practice

Edited by
I.B. DONALD

Reprinted from Thin-Walled Structures Vol. 9 Nos 1-4

ELSEVIER APPLIED SCIENCE

Contents

Foreword	v
Preface	vii
List of Contributors	xiii

KEYNOTE ADDRESS

A Ramble Through the Life of a Down-Under Academic	1
N. W. MURRAY	

SESSION 1

Dynamic and Static Axial Crushing of Axially Stiffened Cylindrical Shells	29
R. S. BIRCH & N. JONES	
An Alternative Method for Determining the Behaviour of Round Stocky Tubes Subjected to an Axial Crush Load	61
R. H. GRZEBIETA	
Ultimate Load Behaviour of Box-Columns under Combined Loading of Axial Compression and Torsion	91
M. MAHENDRAN & N. W. MURRAY	

SESSION 2

- The Treatment of Shear Lag in Design 121
 B. A. BURGAN & P. J. DOWLING
- Prestressed Membrane Structures — The Ultimate
 Thin-Walled Structure 135
 P. W. KNEEN
- On the Natural Frequencies of Vibration of a Ring Surrounded
 by and/or Containing a Fluid 151
 H. M. IRVINE

SESSION 3

- Transverse Flange Stresses in a Simple Box Girder 163
 L. C. SCHMIDT & M. SALAHELDIN
- Blast-Resistant Buildings for Australia's North-West Shelf
 Liquid Natural Gas Plant 175
 C. TURNELL, N. W. MURRAY & I. D. BENNETTS
- Theoretical Investigation on the Behaviour of a Plate Strip
 Undergoing Local and Global Deformation 199
 P. H. DAYAWANSA & N. W. MURRAY

SESSION 4

- Thin-Walled Structures and Related Optimization Problems . . 241
 G. THIERAUF
- Probabilistic Properties of Thin-Walled Elements 257
 R. E. MELCHERS

SESSION 5

- Elastic Biaxial Bending and Torsion of Thin-Walled Members . . 269
 N. S. TRAHAIR & S. BILD

Recent Developments in the Buckling and Nonlinear Analysis
of Thin-Walled Structural Members 309
G. J. HANCOCK, A. J. DAVIDS, P. W. KEY, S. C. W. LAU &
K. J. R. RASMUSSEN

Distortional Buckling Strength of Elastically Restrained
Monosymmetric I-Beams 339
M. A. BRADFORD

SESSION 6

Fatigue Cracking in Damaged Cylinders Subjected to Cyclic
Compressive Loading 351
A. C. WALKER & M. K. KWOK

On the Use of Bubble Functions in Stability Analysis 377
R. LAWTHER

Buckling Considerations in the Design of Elevated Steel Water
Tanks 389
L. R. ALLEN, G. L. HUTCHINSON & L. K. STEVENS

SESSION 7

Effect of Pre- and Postbuckling Behaviour on Load Capacity
of Continuous Beams 407
P. GRUNDY

General Non-Dimensional Equation for Lateral Buckling 417
M. M. ATTARD

Aesthetics of Thin-Walled Structures 437
A. HOLGATE

B. A. BURGLAN

A. J. DAVIDS
